#### A GAME WITH THE GODS - ANCIENT BALLCOURTS OF THE SOUTHWEST

Ancient Ballcourts have been well known in the Mesoamerican world for hundreds of years. Here games were played in stone courts and held deep religious meaning that often ended in the sacrificial death of the players. Since the 1930's over 200 earthen ballcourts have been identified in Arizona, some dating to over 1,000 years ago. Venture out with archaeologist Dr. David R Wilcox from the Museum of Northern Arizona to visit ballcourts and other archaeo-logical sites throughout the Southwest. Listen as he discusses his theories on the religious and economic meanings of these courts. You will visit the Arizona desert Hohokam sites of Casa Grande and Pueblo Grande; Colorado Plateau country including Wupatki National Monument; and the impressive Anasazi ruins of Chaco Canyon in New Mexico. 30 minutes

#### A GOOD DAY TO DIE

*A Good Day to Die* chronicles a movement that started a revolution and inspired a notion. By recounting the life story of Dennis Banks, the Native American who co-founded the American Indian Movement (AIM) in 1968 to advocate and protect the rights of American Indians, the film provides an in-depth look at the history and issues surrounding AIM's formation. From the forced assimilation of Native Americans within boarding schools, to discrimination by law enforcement authorities, to neglect by government officials responsible for the Bureau of Indian Affairs, AIM sought redress for the many grievances that its people harbored. Banks' personal struggle culminated in major armed confrontations at Custer, South Dakota and Wounded Knee - climactic flash points which saw him standing steadfast as a leader for his cause. Bittersweet and compelling, *A Good Day to Die* charts the rise and fall of a movement that fought for the civil rights of American Indians. 92 minutes. Not Rated.

**THE AMERICAN INDIAN CHURCH**

Little Crow (Dakota/Lakota), along with his wife Alice Bryant, founded the American Indian Church back in 1978. Based in Garden Grove, California, it has come to be known as "The Gathering." Together, they created a diverse community, and "the only one of its kind" in the United States. The worldview of the American Indian Church is based on the sacredness of all things, and has no equal in any organized religion, and yet is connected to it. It stems from Little Crow's oral tradition. Little Crow is an Emeritus Professor in the American Indian Studies Department at California State University, Long Beach, where he has shared his worldwide view with students for 30 years. Presented on 4 VHS or 2 DVD.

**- PART 1 - THE MESSENGER**

This segment opens with the maker's introduction. Little Crow's beautiful opening blessing follows. Little Crow is an interpreter of his oral tradition. He is The Messenger of the American Indian Church. We see his transformation from substance abuse into this life long dedication to 'holding the torch' for his oral tradition in the face of hostility and hardship. Ultimately, he will take The Message back to his ancestral homeland in Minnesota.  
36:50 minutes.  
LPP-001V VHS (Out of Print)  
(Videos/Documentary)

**- PART 2 - THE COMMUNITY**

The American Indian Church is a community in the making even after 25 years. Every person who has stepped through the doors of the Sunnyside Elementary School multi-purpose room, where the Gathering meets, has impacted and added to that community. In this segment we see how the seeds that have been planted by Little Crow's oral tradition have affected the members of the "TIYOSPAYE" (community). The shifts in people's lives that are documented in this segment are what Little Crow calls "my life's work." They happen with every breath. We just need to remember. 60 minutes. Bonus segment: A tribute to Riley B. Sunrise, Hopi Elder and member of The Gathering.

**- PART 3 - THE MESSAGE**

This segment opens with reference to the thousands of years old basis for the Lakota/Dakota oral tradition - that being: the stars. Following this, the fundamentals of the message of the American Indian Church are covered and the tenets are shared. Presented in a direct and concise manner, with a little humor thrown in, the oral tradition (as interpreted by Little Crow) is a beautifully pragmatic message that can and will make requirements of you. It is deceptively simple: Breath is the Creators and the Creators are everything...everything! In closing, the Gathering and community members share what the message has brought to them. 29:48 minutes.  
LPP-003V VHS (Out of Print)  
(Videos/Documentary)

**- PART 4 - THE LEGACY OF HOPE**

Little Crow talks about the children coming back to bring us home. This is a belief based on the Dakota/Lakota oral tradition. The children are more 'recently returned' and therefore are closer to the Creator. In this segment the Sacred Children of the Gathering are honored and they have a chance to speak for themselves. The narration of this segment is drawn from the books of Little Crow. 26:52 minutes. Bonus segment: A tribute to Alice Bryant and Little Crow, the co-founders of the AIC. Gathering members share their perceptions and give thanks. The maker then offers a conclusion and a small challenge to the viewers. 7:20 minutes.

### AMERICAN OUTRAGE

Winner of 12 major awards in North American film festivals. Breathtaking footage. An exceptional human rights film defining its message that the United States acquisition of tribal lands under the guise of legality continues today. It is the story of two Western Shoshone sisters, Carrie and Mary Dann, and how they endure terrifying roundups by federal marshals in which thousands of their horses and cattle are confiscated for the crime of grazing

them on open range outside their private ranch - even though that range is recognized by the U.S. as Western Shoshone land. After being sued by the government for trespassing, their dispute went to the Supreme Court, and eventually the United Nations. Why has the U.S. spent millions persecuting and prosecuting two elderly women grazing a few hundred horses and cows in a desolate desert? The Dann sisters say the real reason is the resources hidden beneath this seemingly barren land, their Mother Earth: it is the second largest gold producing area in the world. Bonus materials include a short film, *Crisis at Mt. Tenabo*, featuring a new song by Joanne Shenandoah. 56 minutes. Not rated.

### AT THE EDGE OF THE VOLCANO

For an ancient people known to archaeologists as the Sinagua, there were warning signs as the Earth trembled under foot. Sunset Crater Volcano erupted over 900 years ago and smothered the entire region in cinders and ash... and left an im-

print on the people. The eruption was nothing new. Volcanic activity had occurred over millions of years, but this time it was witnessed by humans. This is the story of three National Monuments that preserve the history of Sunset Crater Volcano and those who lived *At the Edge of the Volcano.* In the deep recesses of Walnut Canyon, cliff dwellings afforded protection from the blowing winds and bitter cold of winter. To the north at Wupatki National Monument, skilled builders constructed one of the largest pueblos in the region. Discover the intriguing tale of resilience and skill, of native peoples who carved a civilization out of a desert wilderness. 60 minutes. Not rated.

Howard Bad Hand is a Sicangu Lakota from Rosebud, South Dakota, and was educated at The Lenox School, Dartmouth College, Harvard University, and Sinte Gleska College. He is a singer and composer of Lakota songs and is the lead singers of the Red Leaf Takoja and Heart Beat singing groups. This music... the ceremony, carries the healing sounds that can entertain the body's rhythms with the universal rhythms. When approached in a sacred manner, it offers the opportunity to experience these healing vibrations of sound in a most profound way.

#### - THE SACRED SONGS OF NATIVE AMERICAN HEALING - SONGS TO LEARN BY

The songs presented on this recording are featured in Howard's book "Native American Healing." On this CD, Howard, accompanying himself in three part harmony, sings more slowly and enunciates the Lakota words of the songs more clearly than would be the case in an actual ceremony. This has been done to assist non-Lakota speakers in learning the songs. The harmonies and tonal qualities of this recording also make it an excellent choice for contemplative or meditative listening.

**BAYOU ECLECTICO****- MEMORIES IN CABABI**

BAYOU ECLECTICO is Ken Keppler, violin; Jeannie McLerie, violin; Scott Mathis, mandolin; Linda Askew, guitar; Jefferson Voorhees, drums; Elizabeth Neely, Tarahumara drum. Elliot Johnson from Cababi Arizona, and Elliot's Uncle, Charlie Johnson of the AJO ORCHESTRA, and others, are the inspiration for this group of performers. The Tohono O'odham (Desert People) have been playing fiddles for more than 200 years, ever since missionaries taught them to make fiddles and play for the Catholic Mass. Those early performers picked up musical styles of musicians that passed their way, the mazurkas, chotis, 2-step, cuadrillas and polkas. From these roots come what is now

called "Chicken Scratch". Today this music is performed on accordians, saxophone, electric guitar, bass and drums, and so the oldest tunes have nearly been lost. Fourteen songs including: *Cuadrilla*, *Biscuit Cheeks*, *Big Shoes*, *Great Big White Tortillas*, *Pinto Beans*, *Memories In Aho* and more.

**BIG BEAR**

The time is 1875. The place "the prairies." The smell of battle and death wafts across peaceful

windswept prairies, where millions of buffalo once grazed. With the Government and settlers staking claim to the Cree Indian ancestral lands and hunting grounds, the slowly starving Cree are forced from the land they call home. Torn between loyalty to their leader, Chief Big Bear, and bitterness at the broken promises of the white man, the Cree are desperate. Pushed to the breaking point and rejecting Big Bear's impassioned pleas, Cree warriors launch a deadly attack at Frog Lake. With vengeful army troops relentlessly in pursuit, Big Bear knows another even more deadly battle will follow -- one that will change the lives of his people forever. ### CHIEF JIM BILLIE

#### - ALLIGATOR TALES

The music of Chief Jim Billie reflects the influences he grew up with on the Seminole Reservation in the swamplands of the Florida everglades. His songs are all written from true experiences, often paying homage to and telling the world the ways of his ancestral past. He takes those influences and songs in an unusual direction from where one might expect, bringing instead a message of suffering and difficulties, a description of the positive aspects of life and where we can go from here. Happy to be alive, in love, and with his children, taking care of his tribe and to continue the quest for the betterment of his people - his is not a struggle, but more looked at as the business of a positive life. Spreading his outlook and stories through his music is his ongoing life's passion. 12 songs include *Big Alligator*, *Old Ways Will Survive*, *Ways of the Glades*, *Master of Them All* and *The Rabbit and The Bear*.

Using a combination of music, sounds and musical talents to tell these tales delivered by the Chief's captivating voice, we invite you in to his unusual world and his people's viewpoint on the rest of the world. As Seminole is not a written language, preservation of these stories and legends takes on a dual purpose - passing along for all time these stories and teachings and making them available for all the world for the first time. As the Chief explains, these stories are meant to be told at night. So, picture yourself meeting him somewhere in the mysterious Florida Everglades, as they unfold - under a chickee - with the sounds of the night mixed in. **BILLY JACK**

He's a warrior, a mystic, a martyr....capturing the heart and soul of a generation. Embodying all these and more, BILLY JACK quickly became one of the most unorthodox and magnetic movie heroes of all time. Tom Laughlin is the title character, a half-breed Indian and ex-Green Beret returning to live in solitude on an Arizona reservation. He is drawn to the progressive Freedom School - and the idealistic woman (Delores Taylor) who runs it. But when the tensions flare between the students and narrow-minded locals who fear what they cannot understand, Billy Jack becomes the school's protector. Once again, violence finds him. First released with little fanfare and dismissed by most critics, this film's gut honesty struck a chord with audiences, who later made it a box-office giant. BILLY JACK lives on as a powerful reminder of the hopes and turmoils of the '60s - and a cry for peace in our troubled world. Starring Tom Laughlin, Delores Taylor and Chuck Howat.

Single-handedly, he wages a one-man war to bring these renegades to justice. But they push the violence too far by mounting a final bloody assault that leaves few surviving. **BILLY JACK GOES TO WASHINGTON**

The most dangerous Billy Jack of all! Even though it was made during our nation's bi-centennial, it's as if the story was ripped from today's headlines. Corruption, scandal, intrigue, murder.... they're all in this explosive exposé Washington found so dangerous it didn't want the movie released. See for yourself why Senators like Bradley, Rudman and Pell quit in protest of the rampant corruption. See why lobbyists drop like flies. See how the backroom deals and party powerbrokers have stolen the American dream of a government of, by and for the people and turned it into a government of secret deals and corporate greed. Like BILLY JACK, this film has survived the powers fighting to destroy it and is finally being released to expose the truth and win America back! Starring Tom Laughlin, Delores Taylor, E.G. Marshall, Teresa Laughlin, Sam Wanamaker, Dick Gauthier, John Lawler, Peter Donat, Michael Irving, Pat O'Brien, Victor Izay and Lucy Arnaz. 114 minutes. Not Rated

#### BROKEN ARROW

Nominated for three Academy Awards, *Broken Arrow* is a landmark western for its compassionate portrayal of Native Americans. The year is 1870, and former Union soldier Tom Jeffords is recruited to remove a tribe of Apache warriors who have been interfering with U.S. mail delivery. But Jeffords refuses, preferring to learn about Apache culture in order to attempt a peace treaty. Not only does Apache chief Cochise promise at least temporary peace by "breaking the arrow," but Jeffords falls in love with - and marries - a Native American woman. Tragedy strikes, however, and it is now Cochise's challenge to stop Jeffords from acting out in vengeance in this classic western "with plenty of action" that is also a compelling love story. Starring James Stewart, Jeff Chandler, and Debra Paget. 93 minutes. Not Rated.

#### BROKEN RAINBOW

Passionate and compelling the Academy Award-winning *Broken Rainbow* is the heartbreaking tale of the forced relocation of 12,000 Navajo's from their ancestral homeland in Arizona that began in the 1970's and continues to this day. *Broken Rainbow* bears witness to the machinations of energy companies and their government proxies as they eagerly cast aside the peaceful Navajo to make way for oil, gas, uranium and coal exploration. In

their own words, elders and outside experts discuss the rich culture and history of the Navajo as well as their close friends and neighbors the Hopi. The film follows these Native Americans as they take their protest to Congress and join with the militant American Indian Movement, turning their tragedy into acts of heroic resistance. Beautifully photographed and scored, the film captures the sweeping majesty of sacred Native American lands and the people who inhabit them. Narrated by Martin Sheen, *Broken Rainbow* compassionately illuminates a modern Trail of Tears, giving voice to the conflicts faced by indigenous peoples who struggle to survive in the face of Western imperatives.

**CHACO**

We may never know the reason why, but 1000 years ago this rugged canyon came alive! Giant public buildings rose like cities from the desert floor. But were they actually cities? There is no doubt they were carefully planned... built upon and expended over 300 years, all the while adhering to a master architectural design. Hundreds of miles of roads converged on Chaco Canyon. Trade networks extended to distant oceans and deep into Central America. It was the ceremonial heart of the Ancestral Puebloan world. Here, in the midst of a harsh desert, was a cultural oasis. What was Chaco? Like Mecca, it may have been a religious destination. While archeologists debate the question, the descendents of the Chacoans have stories to tell: insights that go back to one of the most remarkable places in all of Ancient America. 60 minutes.

#### CHEROKEE STUDY COURSE 1

This is a basic beginning study containing sixteen lessons with some everyday vocabulary, sentences and phrases. It gives the student an opportunity to practice writing the Sequoyia Syllabary and at the same time learn the correct pronunciation using the companion audio tape. Included are tests for each lesson with the answers in the back of the book so the student can test themselves. This study is in the Western or Overhill dialect, but can be used by the Eastern or Kituwah as well, as there is very little difference in the two dialects. Prentice Robinson taught Cherokee at Tulsa Junior College and in community centers for over 20 years. As in each of his study programs, every effort has been made to produce accurate and authentic material in both the written and the audio with the intent that an absolute base of information be established for generations to come.

The Trail-of-Tears-like saga was filmed in the canyons, buttes and mesas of Monument Valley. It is the story of a resettled Cheyenne Nation desperately struggling to return to its Yellowstone homeland across 1,500 treacherous miles. Starring Richard Widmark, Carroll Baker, Karl Malden, Sal Mineo, Ricardo Montalban, Gilbert Roland, Edward G. Robinson, Dolores Del Rio, and James Stewart as a lighthearted, quick-fingered Wyatt Earp. 155 minutes. Not Rated

### CHEYENNE PEYOTE SONGS

The Cheyenne began to pray with peyote in the late 1800's. In 1884 they were visited by Quanah Parker who ran several meetings for them. At about that same time, Leonard Tylor and John Turtle went to Kiowa country and learned the ceremony. Thus, Cheyenne peyotism has been close to the Comanche and Kiowa tradition for a very long time. A few of these songs have been sung by the Cheyenne, Comanche, and Kiowa for so long that it is now difficult to determine where they actually started. It is the feeling of the singers that it is not so important where the songs started, but that people might get some good benefit and inspiration from them. Recorded at Calumet, Oklahoma, 1975. CD released in 2004.

### CHICKEN DANCE SONGS

The 1980's saw a revival of this traditional style of dance from the central plains of Canada. Today it has become a regular dance event at Pow Wows across North America. The outfit of the dancers vary widely, but most often it includes a feather bustle fastened around the hips and a porcupine hair roach. Fans, dance sticks, hoops, rattles and some animal pelts are also regularly included as part of the chicken dancer's regalia. Traditionally, the dance is a simulation of the courtship of the prairie chicken. It is a full body dance that incorporates head, shoulders, arms, hips and legs. Good chicken dancing is also about attitude - you must "strut your stuff" to try to win the attention of a mate. 15 songs including 5 men's chicken dances, a straight chicken dance and *These Moccasins Are Made For Walkin'*, *Born 2 Move*, and *Calling Card*.

### CHIEF MOUNTAIN HOT SHOTS: FIREFIGHTERS OF THE BLACKFEET NATION

Among our nation's firefighting forces, Native American firefighters have received almost no measure of the public recognition they so justly deserve. And yet more than 70% of all of our nation's wildland firefighters are Native American. This documentary honors the Native American firefighting forces of this nation by acknowledging the great debt we owe them. This story focuses on the renowned Chief Mountain Hot Shots of the Blackfeet Nation. Over the past few years this crew has come to be included among the elite corps of the wildland firefighting forces in the nation. We watch them launch an initial attack on a wildfire, armed with the essential weapons of the skilled firefighter - a chainsaw, a shovel, and a pulaski. We listen to respected elders reminiscing about the days they led the crews in the 1940's and set the highest records of excellence in the firefighting world. We also explore the ways in which these firefighters identify themselves culturally as both traditional Blackfeet warriors and also thoroughly modern and technologically sophisticated firefighters. 60 minutes.

It's been seven years since the Wyoming Indian High School Chiefs have won a state championship in basketball. For most schools, this is a rather unremarkable statistic. But for the inhabitants of the Wind River Indian Reservation, who have experienced a century and a half of injustice, basketball is a form of empowerment, self-expression, and access to the world outside "the rez." By using basketball as a vehicle, "CHIEFS" explores what it means to grow up Native American at the turn of the 21st century. 87 minutes. Un-rated.

### CHINGACHGOOK: THE GREAT SNAKE

Like Spaghetti Westerns, the Red Westerns are classic American Westerns created far, far from the American West—in this case, by Communist East Germany's legendary DEFA Film Studios. But unlike westerns made in the West, these beautifully shot films, with plots based on historical sources, made the Native Americans the heroes and cast the white settlers as villains. Starring Serbian actor, stuntman and director Gojko Mitic. **These movies are in German with English subtitles.** Based on a story by James Fenimore Copper, the author of *The Last of the Mohicans*. In 1740, as English troops seize French settlements in North America, the Huron and Delaware tribes are enlisted as mercenaries on opposite sides of the conflict. But an Indian warrior attempts to unite them. Filmed in Slovakia and Bulgaria in 1967. A novelty for Western lovers. 86 minutes.

### THE CODY FAMILY

The Navajo Shoe Game is played during the night. It is mostly played for creation, but may be performed as a chanting ceremony. It is played only during the winter, and sometimes into late spring. The first shoe game song was played by the day and night animals to decide if there should be only a day or night. Neither side won, therefore there is night and day. It is a counting game and yucca reeds are used to keep score. The team with all the yucca reeds are the winners.

### HERMAN CODY

#### - MY WAY

The songs on this album contain tidbits of accounts derived from life as Herman lived it as a child and adolescent around the Grand Falls area of the Diné Nation. In the Native American way of life, a prayer can be chanted, and thus songs can be construed as prayers. Life is not complete without a song and prayer in one's heart and in one's mind. One must thank his niece, Radmilla Cody, for goading him into recording this album. 12 songs including *The Sacredness of the Horse, The In-law, A Shepherd's Song*, and *Rodeo Cowboy*.

**Jimmy Cody** releases his fourth recording. This time he proudly presents 12 Dine Shoe Game songs. The Dine shoe game is a guessing game which is played only in the winter time. According to Dine history, the first game was played as a contest between the day animals and night animals to determine whether only day or night should be allowed for all time. The game began at night, and by sunrise neither side had won so the game remained unfinished. Therefore, today we still have night and day.

**CORA INDIAN FESTIVE MUSIC (1965)**

In remote regions in the Sierra Madre Occidental

Mountains of Western Mexico, there still remains pockets of Indians who have not adopted the predominant Mestizo culture of Mexico. By virtue of their remoteness, they have kept their own tribal identities, cultures, and languages. Such a tribe is the Cora, living in the mountains of the northwestern part of the state of Nayarit, Mexico. A relative to the ancient Aztec, the Cora belong to the Uto-Aztecan linguistic family. Their music is similar to other Indian tribes of northwest Mexico in both its emphasis on rhythm and its instruments. Cora music is largely rhythmic and much use is made of percussion instruments. Even the violin seems at times particularly rhythmically oriented so as to provide a beat for the dancing rather than as music in its own right. The first nine tracks were recorded in the Cora village of San Blasito on the San Pedro River, the final selection in the neighboring Mestizo mountain village of San Pedro de Honor. Included are a knife dance, violin improvisations with flute accompaniment, flute solos, music and revelry and a ceremonial dance at San Pedro de Honor. Descriptive notes enclosed. **DARK AND LIGHT IN SPANISH****NEW MEXICO**

*Alabados* and *bailas*. *Alabados* The music of *alabados* (from *albar*, "to praise"), Spanish Catholic hymns of New Mexico preserved by the Penitente Brothers, members of a lay religious society of the Roman Catholic Church. Los Hermanos Penitente, formerly found in most Hispanic villages in New Mexico and Colorado, the Brotherhood is strongest now in rural north central New Mexico and the San Luis Valley of southern Colorado. They serve as a welfare agency committed to mutual aid and charitable activities. The Brothers' pious observances are centered around the Passion of Jesus and the spirit of penance. Many of their traditions are long standing and deeply rooted in old European and especially Iberian forms of Catholicism. Most rites, hymns, prayers and sacred

artifacts are strongly influenced by the Franciscans who were the first and for over a century the only clergy in New Mexico. The profound feeling of sadness and loneliness of the *alabados* seems to be intimately related to the land of northern New Mexico and to the history and lineage of the people who live there.

The music of the *Bailes*, social dances, is as different from the *alabados* as light is from dark. It is like two sides of a people's character, one side obsessed with suffering and death, the other delighting in the dance. Dancing is a pastime and has been an integral part of the Spanish people of New Mexico since earliest times. The music truly reflects the cultures and traditions of a vibrant village life.

Seven *Alabados* and thirteen *Bailes*. Extensive liner notes with historical background information on the songs, musicians and music sources.

### DEAD MAN'S WALK

Set in the Texas Republic in the early 1840's, a time in which three cultures - Anglo, Hispanic and Comanche - were in furious conflict over the same harsh land, we are introduced to Augustus McCrae and Woodrow Call, the heroes of LONESOME DOVE. Gus and Call are young Rangers, ripe for adventure, and they get it with the Texas-Santa Fe expedition, an ill-conceived effort on the part of some freebooters and adventurers to capture Santa Fe and annex New Mexico. Led by the land pirate Caleb Cobb, and guided by the legendary Bigfoot Wallace and his mountain-man friend Shadrach, the group fights several engagements with the great Comanche war chief Buffalo Hump, is whittled down by the silent Apache, Gomez, and is captured without resistance by the Mexican army. Marched south by a resolute Mexican officer, Captain Salazar, they survive bear attacks, ice storms, and the rigors of the barren desert known as the Jornada del Muerto. In the end, they arrive at the leper colony of San Lazaro, where black and white beans are drawn to determine which of the invaders will live and which will die. Accompanying the men on this trek is the colorful, amply fleshed whore known as the Great Western - Matilda Jane ROBERTS. In Austin, Gus meets the love of his life, Clara Forsythe, and, in San Lazaro, they encounter the great English lady, Lucinda Carey, who, in the startling climax, helps them survive a last encounter with the wild men, led by the great Comanche, Buffalo Hump. Starring David Arquette, Keith Carradine, Patricia Childress, Jennifer Garner, and Eric Schweig. 283 minutes. Not rated. 11375D DVD (Out of Print.) (Hollywood Movies)

### DEER DANCE SONGS OF SAN JUAN

#### PUEBLO

The San Juan Deer Dance, called paa-share in Tewa, is performed each year in mid February. It begins in the late afternoon on the eve of the dance. With the exception of the Ange'in, all of the songs are very old and sung every year. The Ange'in in this recording was newly composed for the deer dance in 1979 by Cipriano Garcia. The four early morning songs are unique in that fourteen different animals are mentioned in the Apache language during each song. For this recording the first seven are sung in the first and third songs, with the second seven being sung in the second and fourth songs. There are four daytime songs. The first three were shortened to three parts. The fourth was sung with all five sections. The running away song is also sung with all five sections. We are very happy to present these beautiful deer dance songs of San Juan Pueblo.

Hunter is a half Cherokee cursed with the unfortunate affliction of hemophilia, a white man's disease. Guarded by his overprotective mother, all he really wants is to be able to hunt like his father. On his first and only hunting trip, he mistakenly kills a doe, a major taboo that earns him his nickname "Doe Boy," and the disappointment of his father. As he moves forward in life, his grandfather teaches him the importance between hunting and killing and gives him the courage to find the love he desperately seeks. A good coming-of-age story about a young man trying to find himself. Starring James Duval, Kevin Anderson, Jeri Arredondo, and Gordon Tootoosis. 87 minutes. Not Rated.

**THE 8TH FIRE**

The prophecy of the 8th fire is one of many ancient prophecies that refer to the year 2012 and the years directly preceding it... To the Aztecs this is the time of the 6th sun, a time of transformation, and the creation of a new race. To the Mayans, it is the end of time as we know it. To the Incas, it is the time of meeting ourselves again. In Egypt, according to the Great Pyramid (stone calendar) he present time cycle ends in the year 2012. The calendars of both the Mayans and the Cherokee end in 2012. Dave Couchene Jr., whose traditional name means Leading Earth Man, is an Elder and spiritual advisor from the Anishnabe Nation, Eagle Clan. Descended from a long line of chiefs and leaders of his people, he felt compelled to quit his job as an educator and go on a ceremonial expedition of peace around the world. Through his dreams, and visions, the experiences of others who have accompanied him on his journey and the words of the visionaries-past and present.... *The 8th Fire* - One Earth - One Whole Circle - Again.... a message of hope, for the future, for the earth, for the children.

**ECHOES FROM THE ANCESTORS**

As a classic piece of filmmaking, *Echoes From The Ancestors* breathes spectacular scenic beauty and life back into some of the first wise and powerful inhabitants of this land we call America. Hearing the famous quotes of great Native American leaders such as Sitting Bull, Black Elk and Chief Joseph, to mention a few, we are reminded of and see the pure and magnificent landscape of the American west before these proud and Spiritual people were forced onto reservations. Dare we hope to believe that there is still some time to heal some of the pain and damage that has been done to the Indigenous people living today? The answer is a resounding "yes!" if we will only listen and hear where they have been, and then obtain a clearer understanding of where they are coming from. *Echoes From The Ancestors* can be that open door whereby the beginning of a deeper understanding and healing begins. Listen carefully to the words of the wise ones' as you enjoy the majestic wilderness scenery of New Mexico, Colorado, and Wyoming which was and is their homeland.

### **GREAT INDIAN LEADERS & NATIONS**

Two great programs in one package. *Great Indian Leaders* is an award-winning program that etches vivid portraits of four extraordinary figures who were willing to die to preserve their way of life. Crazy Horse refused to bring the Lakota people into submission. Chief Joseph led the Nez Perce on a 1700 mile flight from the United States Army. Geronimo, of the Apaches, used his powers to confound pursuers. Quanah Parker, "Last Chief of the Comanche," and son of a white woman, guided his people between two worlds. This is the poignant and tragic story of the end of the American Indians' way of life and freedom. *Great Indian Nations*, another award-winning program tells the moving story of six mighty Indian nations: The Iroquois, the most powerful of the eastern tribes; the Seminoles of Florida; the Shawnee, whose Chief Tecumseh formed a confederation of eastern tribes to protect their land; the Navajo of the southwest; the Cheyenne of the Great Plains; and the Lakota Sioux. Majestic landscapes, dramatic reenactments, historical photographs and authentic music combine to preserve the richness of these Native American histories and cultures. 110 minutes.

### **THE GREAT INDIAN WARS 1540-1890**

The year 1540 was a crucial turning point in American history. From that point forward, the series of battles between the United States and the Native American Indians began, where blood was shed and ultimately tens of thousands of lives were lost on both sides. The Battle of Tippecanoe, the Battle of Horseshoe Bend, all three Seminole Wars and the Battle of the Little Big Horn were some of the most important conflicts that led up to the last massacre, the Battle of Wounded Knee, where America's landscape would be changed forever. This 3 DVD set is filled with insightful and entertaining bonus features including biographies on notable Cavalry Officers and Indian Chiefs including Tecumseh, Colonel Custer, Black Kettle, Wild Bill Hickock, Crazy Horse, Kit Carson, Geronimo, Sitting Bull and many more. 235 minutes. Billy Joe calls himself a blues based rock and roller. His virtuosity on the guitar is formidable. His music is not straight up blues - some has a little more rock and roll in it, some a little more blues. There is a smokin' version of Carlos Santana's *Earth's Cry, Heaven's Smile*; if you like to feel melancholy *Little Boy Blue* is a pensive moody number sure to fog you into a blue funk; if you like to boogie *Keep The Circle Strong* will help you forget the arthritic old football injury to your left knee. If you haven't heard Billy Joe, take a listen - this debut album is long overdue.

Over 20 songs collected, recorded and annotated by Dr. Ida Halpern, PhD in Musicology from the University of Vienna. The Haida are the native inhabitants of the Queen Charlotte Islands off the northern coast of the Canadian province of British Columbia. The Haida were known and feared by the other peoples of the Pacific Northwest. The music of the Haida has been seriously neglected. The reason for its omission is that their ceremonies, rituals and legends all sprang from music as their central core. Music was so sacred that out-siders rarely heard it, let alone record or study it.

**HANDGAME OF THE KIOWA, KIOWA APACHE & COMANCHE**

Handgame is a very old hide and guess game which has long been popular among tribes of the Plains, Great Basin, Plateau, and Northwest Coast. The game differs in detail from tribe to tribe, but the basics are usually similar. The Kiowa, Kiowa Apache, and Comanche all play the same style of handgame. It is played in the winter, and nowadays is primarily for fun and recreation, although in earlier years players would bet heavily on the outcome. The Carnegie Roadrunners (a Kiowa team) and Billy Goat Hill (a Kiowa Apache team with Kiowa and Comanche members) are perhaps two of the biggest and best-sounding teams in southwest Oklahoma.

**- VOLUME 1**

Twenty three handgame songs sung by these two teams during an actual game. More than 60 singers. Recorded live at Carnegie, Oklahoma ON November 24, 1968. The two teams played a very close and outstanding game. The first part of the game is presented here.

### JOY HARJO & POETIC JUSTICE

Joy came of age in the midst of a shifting, political national native consciousness. She carried her mother's love of singing and songwriting with her, and her father's oratorical and artistic accomplishments. Then one day she had to have a saxophone. That led her back to the stomp grounds of her heart. She began to sing.

### - LETTER FROM THE END OF THE TWENTIETH CENTURY

Poet Joy Harjo, best selling author of several books including *The Woman Who Fell From The Sky* (1996) and *She Had Some Horses*, plays saxophone and speaks poetically potent lyrics over a Native American-jazz-rock-reggae musical backdrop. JOY HARJO & POETIC JUSTICE have toured extensively throughout the United States. They opened for the INDIGO GIRLS on their Honor The Earth Tour and have also performed with Bonnie Raitt & Toad The Wet Sprocket. "We play what has been called 'tribal-jazz-reggae,' which also contains elements of rock, blues, prophecy and poetry. Our audiences have been known to dance wildly in the aisles." Joy Harjo

The music blends traditional Native rhythms and singing with jazz, rock, blues and a touch of hip-hop. Joy's trademark intensity is inspiring. The songs feature memorable refrains, smoky sax, subtle pow wow based beats, and uplifting lyrics. The unifying factor is Harjo's poetic and political vision. **- MEN'S FANCY DANCE**

Fancy Dancing is the result of trying to entertain visitors at reservations in the early 1920's. The outfit combined the popular bustles of the traditional dancers and made them larger, brighter, and more exciting and added feathers, fluffs, and colors wherever they would fit. The Fancy Dance has traditionally been a young man's dance, although many older dancers who are still in shape participate. The Fancy Dance belongs to no one tribe - it started in Oklahoma and is now all over the country, with some differences in dress and style in the North. To be good at this dance, the dancer must train for stamina and agility. The dance is fast and features jumps and twirling. The regalia is said to represent the rainbow spirits in its bright colors and flying feathers and ribbons. The dancer typically wears two bustles of bright colored feathers with added ribbons, feathers, or horsehair hackles and bright arm and head bands repeating the colors and

patterns. The dancers also wears a headdress roach trimmed in colored horsehair and featuring two eagle feathers. Dancers also carry coup sticks which are highly decorated with ribbons or feathers. This recording features 21 songs performed by YELLOW HAMMER, ELK WHISTLE, ROSE HILL, HIGH NOON, BLACK LODGE, NORTHERN WIND, RED BULL, SWEETGRASS, BATTLE RIVER, BLACKSTONE, FLY-IN EAGLE, STAR BLANKET JRS., EYABAY, PIPESTONE CREEK, THE BOYS, WILD HORSE, PAINTED HORSE, LITTLE ISLAND CREE, and WANDERING SPIRIT. **- GRASS DANCE**

The beginning of the Grass Dance has many stories. One story tells of the Grass Dance originating with the nomadic people of the central plains. When a new camp site was chosen, the young warriors were asked to dance to flatten out the grass, but also to bless the area. To keep the tribe safe from any danger that may be nearby. The Grass Dance movements also reflect the warriors understanding of the world in which he lives, but can also be interpreted as the wind blowing through the long grass. Many aspects of the dance reflect the need to find equilibrium - what is done with one side of the body is replicated on the other side. The outfit for the dance is comprised of long strands of yarn, ribbon, or fabric attached to the body. This is reminiscent of the long grass that once was so abundant and to pay homage to Mother Earth. The roach has two feathers attached in such a way that they rock or twirl as the dancer moves. The Grass Dance is fluid, with slow natural movements of the body. It reflects the connection of all things. 16 songs previously recorded on other Turtle Island Music recordings. Drums include BLACKSTONE, PORCUPINE, STAR BLANKET JRS., SWEET GRASS, NORTHERN WIND, MANDAREE, WILD HORSE, YELLOWHAMMER, BIG RIVER CREE, TA OTHA SPIRIT, FLY-IN EAGLE, PIPESTONE CREEK, RED BULL and BATTLE RIVER. **- CHICKEN DANCE**

In the spring of the year Prairie Chicken gather in great numbers to perform one of nature's most beautiful mating rituals. The male Prairie Chicken gather to dance for the female's, to strut and show how good of dancers they are. The first people of this land have a connection to Mother Earth and all of its inhabitants including the Prairie Chicken. They have adopted the style of dance from the Prairie Chicken to celebrate life and the beginning of a new year. This dance was a secret society dance used on special occasions to evoke the spirit world for help or guidance but also to give thanks. It has become a social dance, seen at many pow wows as part of the dance competition. The Prairie Chicken dance outfit consists of pants and shirt with beaded rondels and chicken plumes attached. The sleeves of the shirt are held in place with garters and beaded cuffs. The Chicken Dancer wears decorated aprons both front and back and a wide beaded belt with beaded side drops. The dancer wears a roach and a beaded headband with side drops, enhancing his movements as he dances. Around his ankles, the dancer wears garters, fringe, and bells. He might hold an eagle feather fan or a hoop of sweergrass. Drum groups include Eyabay, Big River Cree, Pipestone Creek, Star Blanket Jrs., Sweet Grass, Little Island Cree, Battle River, Red Bull, North Buffalo, Wild Horse, and Fly-In Eagle.

**- JINGLE DRESS**

The jingle dress dance has its beginning with the Anishinabe people of the Lake of the Woods area in Ontario and part of Minnesota. There are a few stories as to the origin of the dance, but one thing is agreed on, it first came to the people as a way of healing the sick and infirm. If one danced this with the jingle dress, miracles would happen and the sick would be healed. The dress features tiers of seven rows of jingle cones. The cones may have originally been metal lids from Copenhagen snuff, and are now made of various other metal materials. Some instances of use other noise making materials occur, such as bird bones or deer hooves. Dresses are decorated with ribbon, appliqué, paint, and beadwork with matching beaded leggings, moccasins, purse and hair ornaments. Eagle or other feathers and plumes are worn and a fan is carried and raised during the honor beats of the song. Old style jingle dancers do not wear plumes and do not carry a fan; they raise their hands on the honor beats in order to receive healing. 16 songs by LITTLE ISLAND CREE, WILD HORSE, ELK WHISTLE, RED BULL, PAINTED HORSE, SWEET GRASS, FLY-IN EAGLE, NORTH BUFFALO, PIPESTONE CREEK, BATTLE RIVER, TA OTHA SPIRIT, BIG RIVER CREE, and NORTHERN WIND. All songs previously recorded.

**- WOMEN'S FANCY**

The Women's Fancy Shawl is one of the newest dances of the pow wow. It is much more vigorous than the other female dances. This dance has its beginning in the southern United States. When one looks at the Fancy Shawl that adorns the dancer, it looks much like a butterfly in flight. This is distinctive of the Women's Fancy Shawl dance. The fancy shawl outfit is intricate in beading details. Fully outfitted women fancy dancers wear cloth dresses of colorful material, appliqué, beaded moccasins and leggings, a single plume in the hair, with a large beaded barrette. The coordinating fancy shawl is tucked under the cape at the shoulders or hanging, folded over the arm. The dancer uses the shawl and shoulders creating smooth movements while keeping her footwork in harmony with the fast paced drum rhythm. High steps are a part of the motion of the dancer as she twirls and bounces freely. This is a dance for energetic women as it takes a great deal of stamina. 15 songs from WILD HORSE, SWEET GRASS, RED BULL, LITTLE ISLAND CREE, FLY-IN EAGLE, BATTLE RIVER, PAINTED HORSE, PIPESTONE CREEK, NORTH BUFFALO, TA-OTHA SPIRIT, and BIG RIVER CREE. All songs previously recorded.

**- WOMEN'S TRADITIONAL**

Women Traditional dancers represent the connection that all women have with Mother Earth. When they dance, one foot is supposed to always be in touch with Mother Earth. That is why the foot is lifted very little from the ground and little steps are taken when they dance. The movement is slow, with rhythmic steps that allow their fringes to almost touch the ground. They swing and sway representing the slow, steady movement of life on Earth. The dance may also consist of bending the knees in time to the beat of the drum, giving slight

up and down movements to the body while subtly shifting the feet to turn. A women's traditional regalia most often consists of leather, but can also be made of fabric. Their leather regalia is often adorned with extensive heavy beadwork. These women will often have a full length breastplate going almost to the ground. The skirt comes to the top of her leggings or can come to the top or her moccasins. Traditional women dancers carry a folded shawl over one arm and usually a feather fan from an eagle which they hold in the air for the honor beat of the drum. 12 songs from WILD HORSE, FLY-IN EAGLE, BIG RIVER CREE, NORTH BUFFALO, STAR BLANKET JRS., RED BULL, ELK WHISTLE, LITTLE ISLAND CREE, BLACKSTONE, MYSTIC RIVER, and TA-OTHA SPIRIT. All songs previously recorded.

### HOVENWEEP: SILENCE OF THE CENTURIES

In 1874, as pioneer photographer William Henry Jackson clambered down the boulder-strewn canyon, he knew he was descending into the past. Defiantly, the stone walls had withstood the onslaught of time... of untold summer storms and winter snows. He called this place Hovenweep: desert valley in Paiute. But at one time, these canyons were alive with the sounds of village life. Most intriguing were the towers: sentinels of a culture that, in the distant past, had spread across the four corners region. Who were these people? And, how long had it been since these canyons had slipped into the silence of the centuries? Hoven-

weep villages were built on a human scale. Like water, the stones gracefully flow from the bedrock that supports them. With computer animation and award winning photography, the ancient villages come alive once more. 40 minutes.

### **LUCIE IDLOUT**

#### **- E5-770: MY MOTHER'S NAME**

"In the 1930's and 40's Canadian Government administrators assigned disc numbers as a way to register Inuit individuals who's Inuktitut names made them difficult to identify. Canada was divided into east (E) and west (W) and then into 12 regions. The Igloolik/North Baffin region began with E5. By 1950 almost all Eastern Arctic Inuit were registered with E5 numbers." Thus the title of this CD. Lucie Idlout possesses a great talent. Her debut album is both powerful and driving. She reminds you of the old school of rock. ### **IN SEARCH OF HISTORY: THE FIRST AMERICANS**

Examine the latest theories, and some of the discredited ones, surrounding the arrival of man in the New World. It is generally accepted that mankind arrived in the Americas approximately 12,000 years ago, coming by way of a land bridge across what is now the Bering Strait. But there are some who challenge this assertion. *The First Americans* is an authoritative look at the theories surrounding the population of the new World that have been proposed since Columbus' day. Learn of the fantastic imaginings of the 15th century Europeans that the Native Americans were survivors from Atlantis. Others theorize that they were descendants of the lost tribes of Israel. More recently, surprising discoveries have some archeologists pushing the date of human arrival further back into the past. *The First Americans* examines all the evidence, visits significant archeological sites and talks with the world's foremost experts for a comprehensive look at this still controversial subject. Color and Black & White. 50 minutes.

### **IN SEARCH OF HISTORY: NAVAJO CODE TALKERS**

In the 1940's, twenty-nine young men from government-run Navajo reservations bravely heeded the call of a nation, which once nearly wiped out their ancestors and the memory of their culture completely. During the second world war, the United States and its allies were struggling to find a code by which to communicate across the Pacific Ocean - one that could not be broken by the Japanese enemy. The solution came in the form of the Navajo people, whose language was as elusive as it was complex. Through their incredible linguistic skills, the Allied forces were able to convey life-or-death information to one another - information that, in some cases, altered the very course of the war. In this eye-opening documentary presented by the History Channel, renowned historians and several Navajo veterans relate how a mere handful of WWII marines devised the only unbreakable code in modern military history. Color and Black & White. 50 minutes.

### **IN THE SPIRIT OF CRAZY HORSE** **- SONGS FOR LEONARD PELTIER**

Between 1972-1976 on the Pine Ridge Reservation in South Dakota, numerous criminal incidents occurred. Chief Frank Fools Crow reported that "... [while police figures show lower total] we Oglalas claim that more than one unsolved (and uninvestigated) murder-a-week was committed at Pine Ridge in 1975 and that a total of eighty had been reached by mid-October". The violence was aimed at destroying members of the American Indian Movement (AIM), their supporters and families. Tribal traditional leaders were attacked by U.S. government backed tribal leader, Dick Wilson, who did not understand or support traditional culture. On June 26, 1975, with Dick Wilson in Washington D.C. negotiating a sale of Lakota reservation lands to the federal government (without the Lakota people's consent), two FBI agents drove onto the reservation without warrant or notice. The resulting mayhem led to the deaths of two FBI agents and a Native American. Four men were indicted for the murder of the agents (no one was charged for the murder of the Native American). One was released and two were acquitted. The fourth, Leonard Peltier was not tried until the following year after coercive tactics were used to gain a statement against him (prosecutors have since admitted that these affidavits were fabricated). The Justice Department has admitted they do not know who killed the agents yet Leonard Peltier continues to serve two life terms for that incident. Peltier's case has been the subject of numerous book, TV and film projects and internationally renowned leaders have asked for his release. Liner notes provide background information and directions for ways to help. Fourteen songs by various renowned Native American artists. An excellent collection of soulful, stirring, evocative music.

### **INCIDENT AT OGLALA**

A Murder. A Mystery. A Mockery of Justice. What are the facts? What are the truths? In 1975, armed FBI agents illegally entered the Pine Ridge Indian Reservation. Gunfire erupted - a Native American and two FBI agents fell dead. After the largest manhunt in FBI history, three men were apprehended - only one, Leonard Peltier, was convicted of murder and sentenced to life in prison. This is his story. From the very beginning, Peltier's case has been dogged with controversy. INCIDENT AT OGLALA is a riveting examination of the case and the very real story of what may be one of the most outrageous abuses of justice in American history. 90 minutes. Rated PG

**INDIAN WARRIORS**

**- THE UNTOLD STORY OF THE CIVIL WAR**

The common view of the American Civil War has always been largely black-and-white: North versus South, rural versus urban, slaveholders versus abolitionists. However, from the conflict's origins to the complicated progression of its major events, the reality of what took place is far more complex. In this illuminating documentary, discover one of the more obscure, yet fascinating aspects of the Civil War era: the contribution of thousands of Native American soldiers. With the help of respected authors Thom Hatch and Lawrence Hauptman, this compelling program reconstructs the forgotten stories of such men as Ely Parker, the Seneca leader who fought alongside General Ulysses S. Grant; Stand Waite, a highly skilled Confederate general and member of the Cherokee Nation; and Lumbee Indian Henry Berry Lowrie, who led a group of philanthropic outlaws during the conflict. From North to South, Union lines to Confederate ranks, THE HISTORY CHANNEL proudly presents this journey to recover a valuable piece of Civil War history. In color and black-and-white. 50 minutes.

**INKUYO - MUSIC OF THE ANDES**

The Incas used music as a medium to transmit their history. As they had no written language, they recounted events and stories through their music. To this day daily chores and significant events are played out in music - musical rhythms born from numerous cultural mixes and influences. *INKUYO* offers listeners a variety of Andean-born rhythms while emulating the sounds of ancient songs, dances and festivals which remain popular and celebrated today. Listeners are joyfully carried back to the earliest Incan civilizations through a combination of modern compositions and traditional pieces inspired by the land and its people. It is works such as this that are not only beautiful but preserve and perpetuate culture and history while informing and cultivating a broad and appreciative audience. *INKUYO*: Pamela Darlington, guitar, sikus, charango, pututu, drums, vocals and the founding member of *INKUYO*;

**- DOUBLE-HEADED SERPENT**

The serpent is a recurrent figure in religious beliefs, ceremonies, activities and legends. Folktales and legends surrounding it in practically every culture have combined to produce religious overtones in many different parts of the world. While in many religions the snake is primarily a symbol, direct worship of the snake as a god-like creature (rather than as an indirect representation) is not uncommon. Python worshippers are found in Africa, and the cobra cults of India are well known. Quetzalcoatl was the feathered serpent of the Aztecs. In the U.S. the serpent is also an active symbol for certain Protestant sects and Hopi Indians, and Burmese snake charmers, who end their ceremonies with a kiss on the top of the cobra's head. Handling of snakes is done both as a gesture of belief and faith in the power of the gods and as an act of defiance of the same power. These songs celebrate the *double headed* serpent.

A glimpse into the magic of the Andes mountains (and culture) where music plays a vital role in Andean daily life. This music has proven to be indomitable, and ever-present. Influenced by the Moon, Sun, landscape, trees, animals, crops and weather of the Andes. Inkuyo's music reflects how strongly Andean daily life, as well as religious beliefs are connected to nature. *Window to the Andes* is perfect fusion of traditional cultural influences with modern compositions resulting in another priceless jewel in the treasure chest of Andean music available.

**- PACHAKUTI: THE OVERTURNING OF SPACE-TIME**

The two cultures that developed in the Andean region, Aymara and Quechua, were rich in their traditions, myths and knowledge of astronomy, which they lived by. In the Andean concept of time, it was believed that long periods of time were linked by severe events which they called *Pachakuti*, from the Quechua/Aymara word Pacha, that means both space and time, and kuti, that means to overturn or to turn back. Together *Pachakuti* means the overturning of space-time; a millennial moment in which one world ends and another begins; a total transformation of things. Although the concept of pachakuti doesn't really relate to music, with the realities we are living with the beginning of this millennium - world and religious events as well as natural disasters - one would think we are going through a pachakuti. 14 songs representing a change in space-time as only *Inkuyo* can.

Burt Lancaster brings dignity, determination and his trademark physicality to this exciting film loaded with thrilling sports action. And he brings dramatic power to his portrayal of Thorpe's greatest triumph: the climb back to a successful life after a bitter slide into obscurity. Also starring Charles Bickford, Steve Cochran and Phyllis Thaxter. *Black & White*. 105 minutes. Not Rated. Available for a limited time.

#### KIOWA 49-WAR EXPEDITION SONGS

Forty-nine is a social dance which is popular today among Indians of the Plains and Southwest tribes, and at intertribal gatherings in big cities where thousands of Indians have relocated in order to find employment. Among Kiowa, 49 is traditionally held after 11:00 PM of midnight until about 3:00 AM. Sometimes a dance will go to sunrise. The dance starts when a group of men gather around a drum, and with a roll of the drum, start the first song. As the songs get underway, those who wish to dance form a close circle around the singers and drum. As more people join the dance, a second circle is formed closely around the first, then a third around the second, and so on. A big dance may have seven or eight concentric circles of dancers moving clockwise around the drum. Kiowa 49 was originally a war ceremony performed on the eve of a war expedition or war party. A war leader would go through the camp singing war expedition songs and those who wanted to go with him on the expedition would join him in the singing. The group would continue through the camp, singing as they went, to the leaders tipi wherein they would sing throughout the night. Although most 49's today are strictly social, a 49 will occasionally be held for a Kiowa serviceman who is about to go overseas, and many of his family and friends take part, much in the tradition of a century ago.

**KOONA**

Teaching Through Hopi Songs is an expression of the Hopi culture in songs. Hopi oral history teaches us that at the beginning of life in this fourth world Maasawu' allowed us to live on HIS EARTH provided that we take care of it for HIM. HE provided us with a bag of seeds, a planting stick, and a gourd of water. Therefore, from that time we became farmers and stewards of this land, growing foods is our primary purpose. The animal that we sing about is Koono (Chippmunk). He is a symbol of Hopi life on the mesas and is indigenous to our rocky mesas. Therefore when we sing about the Koono we envision the value that these animals possess. They provide sensitivity and respect about life and its importance. They are part of the ecosystem of Hopi life.

Caught within an unhappy marriage and with an autistic child, life on the frontier edges was lonely and frustrating. Mary Austin lived a fascinating life. ### **LAST STAND AT LITTLE BIG HORN**

The Battle of Little Big Horn, known as "Custer's Last Stand," has been one of the most frequently depicted moments in American history - and one of the least understood, still shrouded in myth. The battle has inspired over 1,000 different paintings and works of art, calendar displays, comic books and cereal boxes. The golden-haired general and his doomed 7th Cavalry have been wiped out by Indians in more than 40 films. Yet the battle that left no white survivors also left two very different accounts of Little Big Horn: one white; one Native. Using journals, oral accounts and Indian ledger drawings as well as archival and feature films, a Native American novelist, James Welch and a white filmmaker, Paul Stekler combine talents to examine this watershed moment from two views: from that of Lakota Sioux, Cheyenne and Crow who lived on the Great Plains for generations; and from that of the white settlers who pushed west across the continent. Pulitzer Prize-winning Native American writer Scott Momaday narrates. 60 minutes. Not Rated. WG 26189D DVD \$19.95 (Videos/Documentary)

#### LITTLE BIG HORN: THE UNTOLD STORY

The grandson of one of Custer's Native American scouts tells the stories handed down to him about the battle that has become a touchstone of American history. The Battle of the Little Big Horn - "Custer's Last Stand," - has been examined and re-examined so many times that it would seem the subject has been exhausted. But *Little Big Horn: The Untold Story* proves otherwise. The product of over 20 years of research, this study draws some of the most impressive source material imaginable, including restored footage of the first-ever reconstruction of the battle, filmed in 1908 with many of the Native Americans who took place in the real fight. The Red Horse drawings - 40 vivid color portraits made by an eyewitness - offers another privileged view of the famous battle. But perhaps most intriguing are the on-camera accounts of Dr. Medicine Crow, who as a young man knew five or six Crow scouts in Custer's employ, as well as Sioux and Cheyenne veterans of the fight. Through these authoritative accounts, kept silent and unseen for decades, a remarkably cohesive, new view of the legendary battle emerges. This is a must-have DVD for anyone who wants to know what really happened at the Little Big Horn. Color. 100 minutes.

His tall tales indicate he just may be one of the biggest liars who roamed the West. Also starring Faye Dunaway, Chief Dan George, Martin Balsam and Richard Mulligan. 139 minutes. Rated PG-13.

**LITTLE WOLF****- DREAM SONG**

"This was the way of it. Let our circle be strong and full of medicine. Hear me this is my dream song..." David Carson teaches that the old songs were good. In the old days you were considered rich or poor by the number of songs you had. There were songs for just about everything. You were poor indeed if you had no song at all. Families kept songs and the very old songs were prized gifts from the ancestors. Songs were used to empower, to heal, to charm, for love, or to celebrate animals, life and the approach of death. These songs are medicine songs to celebrate the new, for songs are a doorway to a different system of being. Thirteen songs including: *Prayer Song*, *Oweegon*, *Coyote Dance*, *Song For The Journey*, *Eagle Dream*, *Moonlight*, *Jaguar*, *Night Chant*, *Buffalo Nation*, *Raven*, *Twisted Hair*. #### - DEDICATED TO TUPAC AMARU

Jose Gabriel Condorcanqui Noguera Thupa Amaru II, known as Tupac Amaru. An Incan, El Tupac's most notable and noble contribution to the South American Indigenous Movement was his formation of a self-governing nation. He was interested in unifying all ethnicities and sectors of South America. His witnessing of the abuses committed by the Spanish invaders against his nation inspired a massive Indian revolt that shook the dominance of the Spanish Americas. Tupac Amaru paid with his life and the lives of his wife and three children. Out of this injustice a seed of self-determination and desire for independence was planted and has grown into what is now Central and South America.

#### VOLCANO

*LOS INCAS* tells us, "In 1992 we were commemorating 500 years of holding on to our way of life for our 7th generation ...through our music we make an urgent call for all people to come together to help mend the sacred hoop...on the morning of Monday, June 22, 1992, while this album was being created, a massive violation of human rights was taking place: 900 innocent men, women and children joined in passive resistance to protect and preserve their human rights and their land, were camped out in the Plaza Mayor in front of the Government Building in Guatemala City. Without warning, they were awakened with violence by police and security forces - tents were slashed and their money and personal belongings were stolen. They were then divided into union workers and farmers, and kidnapped. This was all administered by the Minister of Government". *LOS INCAS* dedicates this album to the Maya Quiche Nation and its descendants, whom they feel have been able to maintain a profoundly civilized and humble human existence despite persistent violations.

"A fascinating exploration of the history and significance of prehistoric rock art. "In special places throughout the Southwest, unusual artis-tic images appear on boulders, cave walls and cliff faces. These "rock art" sites were once considered meaningless scribbles made by ancient cultures hundreds, even thousands of years ago. Today, scholars recognize rock art as another window into the lives of these ancient people. *MARKS OF THE ANCESTORS* explores six different regions in Arizona with archaeologists and Native Americans. Together they share the meanings of these symbols, shed new light on the ancient people who created them, and suggest how this unique heritage can be protected. Diverse and remote rock art sites in Arizona include Canyon de Chelly and Red Rock Country. Filmed in cooperation with the Museum of Northern Arizona. 60 minutes

### DR. LEWIS MEHL-MADRONA

#### - IMAGERY & DIALOGUE WITH OUR ANCESTORS

Dr. Mehl-Madrone comes from a mixture of cultures: Cherokee and Scottish from the Appalachian Mountains of the USA on his mothers side, and Quebecoise and Oglala from South Dakota on his fathers side. Because of this, he has been trying to bridge cultures and facilitate genuine cross-cultural communication throughout his life. He has written three books all of which show the value that abo-

iginal healing traditions have to offer the modern world. Throughout history, the world's indigenous peoples have relied upon their ancestors for guidance - through stories passed from generation to generation and through direct contact with those spirits. *Imagery & Dialogue With Our Ancestors* builds upon this idea, facilitating a process in which we become able to directly communicate with one of our ancestral spirits. It will work just as well even if you don't believe in spirits. It will help facilitate a process of self-discovery, knowledge, and healing either as metaphor or as real dialogue with an ancestral spirit. The results do not depend on whether you believe in this process as real or as metaphor. If you will, let yourself feel just a little bit (or maybe a bit more) of what it feels like to live within this belief system and worldview.

### MILK RIVER INDIAN DAYS POW WOW

#### - LIVE AT FORT BELKNAP, MONTANA

The Grass Dance way of life has been lost on many reservations. It was the goal of the 37th Milk Dance Committee to bring back the spirit, soul, tradition and respect to the dance arena. Years ago the Grass Dance Singers were a significant few. A drum was placed out in the middle of the arena and only a select few were invited to sit on that drum. The audience knew who the prominent singers were and they respected that value system. All singers of that discreet forum are now gone, however, the host drums MOUNTAIN SOUL and MANDAREE brought back that forum. They brought back the respect to the dance arena in Fort

Belknap. Drums include MANDAREE, MOUNTAIN SOUL, DRY LAKE, CHIPPEWA-CREE, LITTLE ISLAND CREE, BIG BEAR, BUFFALO STONE, EAGLE CLAW and YOUNG GREY HORSE. 14 songs include two grand entry, nine traditional, two contemporary, and one side step. (This really is from the 37th Annual Milk River Indian Days, not the 27th as is printed on the CD jacket and actual CD.)

They created huge earth works and mounds, but also refined works of art. Their influence spread across almost all of eastern North America. Yet, we never know the city's real name... or the name of the peoples who inhabited it. They remain a mystery... shrouded in the fog of time. ### MYSTERIES OF THE ANCIENT ARCHITECTS

Beginning over 2000 years ago, enormous earthworks were built along Ohio's Scioto River, all constructed on a grand scale with intriguing precision... many designed as combinations of giant geometric squares, circles, and octagons. Most amazing, the earthworks seem to adhere to a master architectural design, the earthen signature of a bygone culture. We will never know what these people called themselves. Today, the ancient builders are known to archaeologists as the Hopewell Culture. These people had neither towns nor villages. But they did have ideas - big ideas - and advanced understandings of geometry and astronomy to carry them out. The mysteries persist. Yet, here, we find a tantalizing glimpse into a way of life that resulted in monuments of earth that challenges the imagination. 60 minutes. Not rated.

### MYSTIC WARRIORS

A group of 5 young musicians with various backgrounds and nationalities, *MYSTIC WARRIORS* has been performing in the Washington DC area since 1982 exposing the essence of Andean music in a modern & unique way. The music played is a feast of Indian flutes, pan pipes of different sizes and Indian drums that go back to the times before Columbus. The music is characteristic of the Andean mountain range which sits in what today are the countries of Bolivia, Ecuador, the northern parts of Argentina and Chile and the southern parts of Columbia and Venezuela. Wind instruments used in their recordings are characteristic of the Aymara culture which was located in the *alti-plano* (high planes) region, a part of the Inca empire, and blend in complete harmony with their string instruments, Indian imitations of the guitar brought by the Spanish. *MYSTIC WARRIORS* has earned a well-deserved reputation for their originality, professionalism and musical integrity. Their haunting melodies reflect the powers of nature transcending time and space, exposing the social, political and cultural feelings of the common people of Latin America with high energy tunes.

#### - ANTHOLOGY OF THE ANDES

The people of the Andes have lived in the highlands of South America since approximately 1400 B.C. They have passed on their culture, traditions, art and music from one generation to another. The last pure generation of these highland people were the Incas. The traditional music which lives in the mountains and valleys of the Andes, to this day remains a central part of the societies living in this region. Thanks to the musicians who continue to use the same instruments as their ancestors before them, that music lives. This is the first anthology of modern Andean music with musical instruments that have been played for generations and melodies modernised by the incorporation of the classical guitar and Charango. The wind instruments and some string instruments used in the recording are characteristic of the Aymara culture which was located in the high plains region of Bolivia, South America and was part of the Incan Empire. Ten songs including *El Condor Pasa*, *Llamor* and *Ojos Azules*.

Six of the 20 *Ñanda Mañachi* musicians are represented in this album playing traditional music, from Ecuador, Bolivia, Columbia and Peru. They incorporate flutes, (*kenas*, *rodador*, *sampoña*/ pan pipes), strings (*charango*, guitar), percussion (sheep hoof maracas, scraper, claves) and the big *Tumba* or drum that beats out the heartbeat.

### NATIVE TRADITIONS

#### - SACRED FLUTES

The Native American flute has achieved some measure of fame for its distinctive sound, used in a variety of New Age and world music. The instrument was originally very personal; its music was played without accompaniment in courtship, healing, meditation, and spiritual rituals. Native American flute is the first flute in the world constructed with two air chambers - there is a wall inside the flute between the top (slow) air chamber and the bottom chamber which has the whistle and finger holes. The top chamber serves as a secondary resonator, which gives the flute its distinctive sound. There is a hole at the bottom of the "Slow air chamber and a generally square hole at the top of the playing chamber. A block, or fetish, is tied on top of the flute. Enjoy the wonderful sounds of these historical instruments and experience Native spirituality. 12 songs including *Gentle Spirit*, *Mountain Storm*, *Picking Sweetgrass*, and *Medicine Wheel Path*.

#### - WOMEN'S SONGS

The significant role that the woman played in many

Native American communities is often forgotten. While recovering culture includes seeking to restore songs, ceremonies, stories, and traditional knowledge, women should play a central role in future community and national relations. Many nations were matrilineal and some say matriarchal, meaning that for many issues women ruled. In many Indian communities, women were held to be in more direct contact with the sacred, since women brought new spirit beings (children) into the world.

*Women's Songs* is a tribute to the force and spirit of Native women. Carrying on indigenous ways of respect for women is a lasting gift to future generations and a positive example for all peoples. 12 songs including *Buffalo Song*, *Layla's Lullaby*, *Indian Summer*, and *Water Maiden*.

**NAVAJO CODE TALKERS: THE EPIC STORY**

From 1942 until 1945, the U.S. Marine Corps recruited over 400 Navajo Indians for duty as communication specialists. These specially trained Navajos - known as *Code Talkers* - devised an unbreakable voice code to transmit battlefield messages during the Pacific Campaign. From Guadalcanal to Iwo Jima to Oki-nawa, the Code Talkers transmitted and received military messages in coded Navajo that could not be broken by the Japanese. *NAVAJO CODE TALKERS: THE EPIC STORY* is the first authoritative and comprehensive documentary to examine a little-known chapter of both Marine Corps and Navajo history during World War II. This brilliant and fast paced video brings to life the compelling story of the Navajo Code Talkers whose amazing skills played a vital role in America's victory in the Pacific. The code was so important that it was classified and the Navajo's role in WWII could not be acknowledged publicly until the early 70's. 55 minutes

**NAVAJO SPIN DANCE**

The Navajo spin dance is one of several kinds of social dances traditionally performed during the three of five night ceremony of ndáá, a healing ceremony usually held in the summer months. On each night of the ceremony, sway singing is begun soon after dark, and continues for two or three hours. Then singers may change to social dance songs, such as the spin dance, skip dance, or two-step. The family sponsoring the ceremony decides which dances are to be done, or the choice may be left to the singers. Each dance may last anywhere from 30 minutes to a couple of hours depending upon the popularity of the dance and the number of songs known by the singers. This album presents some of the old-time Navajo skip dance songs by **Boniface Bonnie** and group.

### TRACY LEE NELSON

#### - NATIVE BLUES - 500 YEARS OF THE BLUES

Blues guitarist and singer Tracy Lee Nelson grew up in two worlds - the crowded, suburban streets of Los Angeles County and the mountains of the La Jolla Reservation outside San Diego. Nelson's tunes detail contemporary Native life with a mixture of humor and anger. *Poor Little Indian* is a whimsical rendering of a bad day in a broken-down car that anyone can relate to. *Fire In Her Eyes* is a poignant love song. His understated vocals and subtle guitar work on *Native American Holocaust* seem to magnify the horrors of the tale. Nelson played with the White Cloud Singers for six years. He also played with Red Bone, one of the original Native rock bands of the 70's.

Deep within Ocmulgee's smoke-filled earthlodge, chiefs, council members and ceremonial leaders sat around the central fire: an eagle effigy molded into the earthen floor at their feet. **OLD AGENCY SINGERS OF THE BLOOD RESERVE**

The Old Agency Singers have been singing as a group for the past 25 years. Although most of the members have changed over the years, a few of the original members are still in this group. The Blood call themselves Kainai, which means many chiefs. According to Dan Weasel Moccasin Sr., the Blood received the grass dance from the Sioux of North Dakota. The grass dance is considered the original war dance by the Blood, and the dancers dress in buckskin clothes. The newer chicken dance is also from North Dakota. The Blood call it chicken

dance because the dancers in the United States wear a lot of feathers as compared to the traditional buckskin clothes of the Blood. Chicken dance songs are usually faster than grass dance songs, and the dancers use faster and fancier movements than in the grass dance.

#### PATHFINDER

The boy who would come to be named Ghost was with a group of Viking colonizers who planned to exterminate the local population. Their dragon ship was somehow destroyed with the passengers brutally killed, leaving Ghost as the traumatized sole survivor. A native woman finds Ghost in the wreckage and adopts him as her own son. Years later he remains tormented by his dreams, which along with his different appearance, interfere with his ability to fully assimilate into the community. He has feelings for a young woman from an allied tribe named Starfire, the daughter of Pathfinder, a man searching for a worthy successor. The Vikings return and raze the village and slaughter nearly everyone. Ghost arrives back to the village too late. Ghost advises the villagers that their only chance of survival is to flee, and he departs to take on the Vikings alone. He and Starfire are captured by the Vikings and he is recognized as the son of a

Viking. The Vikings threaten to torture Starfire if he will not betray the location of other villages, so he agrees to help them. Having gained the Vikings' trust he leads them along a dangerous mountain path and eventually to their deaths. He and Starfire return to their village, she as the new Pathfinder and Ghost as the Coast Watcher. Starring Karl Urban, Moon Bloodgood, Russell Means, Ralf Moeller and Clancy Brown. #### THE PATHFINDER

This historic saga, the fourth in James Fenimore Cooper's series of "Leatherstocking" tales, captures the drama of the struggle between the French and the English, with their respective Indian allies, for a contested North American wilderness during the French and Indian wars. Once again, as in *The Last of the Mohicans*, Cooper's noble hero, Natty Bumppo, the Pathfinder, is pitted against the unforgiving elements, amidst an atmosphere of political treachery. Filmed on location in the breathtaking Lake Ontario region, *The Pathfinder* brings to life the resourcefulness and bravery of the self-reliant frontiersman in a story that blends the sweep of history with a riveting adventure and poignant romance. Beautiful Mabel Dunham and her uncle Cap are rescued from an Indian attack and raging waterfalls by the Pathfinder, along with his adopted father, Chingachgook, and Jasper Western. Fleeing through the spectacular Niagara Gorge and escaping an Indian ambush, they reach the safety of Fort Oswego on the Lake Ontario shore, where Mabel is reunited with her father, Sgt. Dunham. The respite is short-lived. Pathfinder and Jasper are dispatched on a mission across the storm-raked lake to help relieve a beleaguered British outpost, accompanied by Mabel - who has won both their hearts - and her father Sgt. Dunham. A ferocious French attack, aided by a turncoat officer, is beaten back and the outpost is saved, though this climactic night-and-day battle costs Dunham his life. Pathfinder loses Mabel to Jasper, but realizes his true destiny. With his father, Chingachgook, he returns to the freedom and the challenge of the wilderness that is his life. Starring Kevin Dillon, Graham Greene, Laurie Holden with special appearances by Russell Means and Stacy Keach. 104 minutes. Rated PG-13.

### **POW WOW TRAIL**

One of the most recognizable elements of Native expression is the pow wow. But very few people outside the culture understand it. They do not understand the significance of the songs and the dances behind pow wow; they do not understand the rites and ceremonies contained within a pow wow. They do not understand the meaning of clans, or why Indian people dance. In this series, we explore the true meaning, beyond the feathers and beads. Culture lives within people; it is expressed through those who practice and participate in these celebrations. This 11 part series

allows you to be a part of the entire pow wow experience!

#### - EPISODE 1: THE DRUM

Everything begins with the drum. It is the heartbeat of the Native people. Different drums exist for different purposes...for healing, for ceremony. Whenever we hear the drum in a lodge, or across the plains, we know it is communion with the spirit world. Hundreds of drum groups exist today. Each hold their own drums, each has its own purpose. We will explore how drum songs are distinguishable from one another, each with different beats and different meanings.

AR 30001D DVD \$19.95  
(Videos/Pow Wow-Dance)

#### - EPISODE 2: THE SONGS

Pow wows are nothing without the songs. They carry the stories, which in turn carry the culture. Some stories tell of great exploits, acts of bravery, and even the simple pleasures in life. The words themselves are secondary; for it is the sound that is heard by the spirits of all living creatures. The music possesses a mystical element within it, and is said to touch the soul. It is this that the songs and the beat of the drum appeal to. Though the words have been lost, the meanings behind the songs survive. *Temporarily not available due to manufacturing problem.*

AR 30002D DVD \$19.95  
(Videos/Pow Wow-Dance)

#### - EPISODE 3: THE DANCES

The next in the POW WOW TRAIL series. Each dance tells a story with its own historical significance, perhaps even the nation's creation mythology. Within the dances and songs, vital elements of Indian culture are expressed and preserved. It was meant to be showy and exhibitionist. The spirit of Native people is embodied in dance.

AR 30003D DVD \$19.95  
(Videos/Pow Wow-Dance)

#### - EPISODE 4: THE GRAND ENTRY

A Pow wow begins with the Grand Entry. The Eagle Staff leads the procession as the traditional flag made of feathers from an eagle. Traditional dancers enter from the East, following the Eagle Staff, then come the Fancy dancers, then the Hoop dancers, followed by the Shawl dancers, and finally the boys and girls. An Elder gives a prayer in the traditional language, and then the Pow wow begins.

AR 30004D DVD \$19.95  
(Videos/Pow Wow-Dance)

#### - EPISODE 5: GRASS DANCE & MEN'S TRADITIONAL

Religious in nature, the Grass Dance evolved from warrior society dances. It is one of the oldest dances and portrays a warrior in search of a proper ceremonial place. The dancer moves like the tall grass of the prairies as it sways in the wind. The traditional dance expresses the pride and dignity of the brave warriors of past and present; it is here where Indians honor their past. The best dancers are able to tell a story through their body movements, capturing the courageous thrusts of the battlefield, or the humility of everyday life. At the same time, the viewer may sense the kinship with the land and its relatives.

AR 30005D DVD \$19.95  
(Videos/Pow Wow-Dance)

#### - EPISODE 6: THE FANCY DANCE

This competition has always been the climax of the Pow Wow. It is a test of speed and endurance. It allows the dancer to display his most intricate steps

and body movements, incorporating their own style. Knees pumping brought up high to the chest, the dancer exudes perfect rhythm. The beat governs his body and the song gives voice to emotion. It is the very soul of the people.

AR 30006D DVD \$19.95  
(Videos/Pow Wow-Dance)

#### - EPISODE 7: POW WOW ROCK

Expressing themselves in the White Man's world, Indian musicians have adapted the traditional music into a new style, which has found its way into the mainstream. Using her music to propel Native issues into the mainstream, Buffy Sainte-Marie shares the special place her music has within the industry, and her role as a trailblazer within the mainstream music industry. Keith Secola's "NDN Cars" is a song about the Pow wow and incorporates a Pow wow beat. Keith and his Wild Band of Indians perform a Round Dance with the audience at their live gigs, recreating the atmosphere of the Pow wow in cities and towns across the nation. Known for their unusual harmonies and wide vocal and musical range, Ulali, an a-capella trio, has created a new genre of Native music and inspired the creation of other Native women's groups.

AR 30007D DVD \$19.95  
(Videos/Pow Wow-Dance)

#### - EPISODE 8: WOMEN

Old customs gave women a special role within the Pow Wow: the women would dance in one spot, stationary, at the outer edge of the circle, holding an eagle fan, an expression of their beauty and grace. The Jingle Dress dance: an Ojibwa dance form, is also a healing ceremony. The dance has since grown into one of the most popular intertribal dance styles at Pow wows. Traditional dances: good dancers glide in all directions, on different feet, sometimes with both feet together. As they bounce, the long dresses and fringes sway rhythmically.

AR 30008D DVD \$19.95  
(Videos/Pow Wow-Dance)

#### - EPISODE 9: THE GRAND EXHIBITION

As pow wow has evolved, so too has the entertainment on the grandest scale. Schemitzun, Connecticut attracts the largest crowds, and the best dancers. We travel to the land of the Pequots, a tribe attempting to recapture its heritage through dollars generated through their casino. They pull out all the stops to run a multi-million dollar pow wow. As it was told in the original legend of the big Drum, the pow wow was a spectacle for all to see and behold, the Pequots certainly bring out the brightest and most intricate outfits, as well as the best dancers.

AR 30009D DVD \$19.95  
(Videos/Pow Wow-Dance)

#### - EPISODE 10: THE WHITE MAN'S INDIAN

There are those who embrace Indian culture, see the pow wow dances as ballet, and regard Native people in general as both fascinating and honourable. They come from such places as the Czech Republic, Denmark, and Germany. They put on their own pow wows, having learned the languages and dances from our people. It is an interesting commentary on how Europeans in general are a-cultural, meaning they seek out identities to latch onto because their own culture and spirituality leave more questions than answers pertaining to existence.

AR 30010D DVD \$19.95  
(Videos/Pow Wow-Dance)

#### - EPISODE 11: POW-WOW FEVER

Anyone who has ever attended a pow wow notices there is something about the people who travel with the pow wows, sometimes on beat up old buses, sometimes the cars themselves are held together with duct tape. There are cars from hundreds of miles away, and as many as a dozen people can pile out of an old Chevy. The announcer (or crier) tries his best to be a comedian, Grannies sell beadwork, girls and boys play with one another. Relationships evolve, some at a social level, sometimes at an intimate level. Fried bannock is sold from portable deep fryers. It is fun, and an affirmation of what it means to be Indian. We end this series with highlights of the images we have seen on this journey along the **Pow Wow Trail**. The places, the people, the stories, and the dancers. Here we honour the ceremony of the Pow Wow.

#### RED CLOUD

#### - VOICES OF THE 6TH GENERATION

The Red Cloud family of today still resides near the sacred Black Hills of South Dakota on the Pine Ridge Indian Reservation. The ancient peyote religion was introduced to the Sioux territory in 1909, a few years after the death of the great war chief Red Cloud (Mahpiyuwa Luta). His great-grandson, Bernard Red Cloud Sr. is a strong believer in the peyote religion, and is himself a Native American Church road man. His grandsons, Bernard III and John II are direct descendants and are of the 6th generation of Chief Red Cloud. They have been singing together since 1990 and have been involved in the church all their lives. Both are enrolled members of the Oglala Sioux Tribe. Presented here are 24 Native American Church Morning Songs in Lakota.

**THE RED ROAD TO SOBRIETY**

The Contemporary Native American Sobriety Movement flourishing throughout the Indian communities of North America. This vital social movement combines ancient spiritual traditions with modern medical approaches to substance abuse recovery in this spirited, and very hopeful documentary. American Indian health practitioners and traditional medicine people reveal the importance of tribal values and spiritual awareness in the recovery process. As the historical segment of the program explains, substance abuse in Indian communities must be understood within the context of "The American Holocaust". Few Americans or Canadians are aware that the governments of North America used alcohol in their attempts to destroy Indigenous culture and acquire Indian lands. The devastating effects were compounded by the circulation of "The Drunken Indian" stereotype. Faced with the loss of their religion, land, freedom and pride, Indian families experienced a syndrome known as intergenerational trauma, similar to the experiences of many families of European Holocaust survivors. 90 minutes

#### REEL INJUN

An entertaining and provocative look at Hollywood's depiction of Native Americans, *Reel Injun* journeys through a century of cinema to set the record straight. Traveling through the heartland of the U.S., to the Black Hills and Monument Valley, Cree filmmaker Neil Diamond examines how the myth of the movie "Injun" has influenced the world's understanding - and misunderstanding - of Natives. With clips from hundreds of classic and recent films, it is a remarkable feat of historical research, documenting the shift from nuanced silent-era heroes to the Western's "noble savage" stereotype, leading up to the burgeoning Native independent scene of *Smoke Signals* and *The Fast Runner*. Containing candid interviews with celebrated directors, writers, actors and activists, including Clint Eastwood, Robbie Robertson, Sacheen Littlefeather, John Trudell, and Russell Means, *Reel Injun* is an insightful and essential compendium for understanding the racial politics of Hollywood and the continuing artistic vibrancy of Native Peoples. ### RUNNING BRAVE

On October 14, 1964, Billy Mills stunned the world by running the most sensational race in Olympic history. But it wasn't how he finished, it was where he started, that made him a champion. Billy Mills is the kind of sports legend that usually has college recruiters drooling. But Western colleges tend to classify Indians as 'quitters' and 'drunks' who 'don't deserve an education.' There is one track coach, Bill Easton of Kansas University, willing to 'take a chance.' This is the story of Billy Mills. The racial slurs and demeaning treatment from campus authorities and teammates. Racial anger from both whites, and Indians because of his friendship with Pat Harris, a pretty, white co-ed. His commission into the U.S. Marine Corps and the discipline and focus he learned there. He makes it to the Tokyo Olympics alone and unknown. It will be the greatest test of his life. Starring Robby Benson, Graham Greene, Pat Hingle and Claudia Cron. 107 minutes. Not Rated

### SACAGAWEA - HEROINE OF THE LEWIS AND CLARK JOURNEY

*The most important expedition in U.S. history might have failed but for the heroism of this teenage girl.* She was an expectant mother, but she endured every hardship these seasoned soldiers experienced. Without her the Corps of Discovery would have failed. This program re-enacts her journey in her own words. Taken captive as a child during a raid, adopted into the tribe of her captors, and then married off, her adventures have only just begun. After Lewis & Clark journey to her village on assignment from President Jefferson, Sacagawea joins the expedition in seeking a northwest passage to the sea. Digging up edible roots and negotiating for horses, she saves the Corps of Discovery, time and time again. With live-action cinematography, the Lewis & Clark journey is beautifully re-enacted. The program carefully traces the journey from St. Louis to Fort Mandan in North Dakota, over the Rockies to the Pacific and back. This is the Lewis & Clark journey. In her words. EXTRA FEATURE - The Living Legacy of Lewis & Clark. They shaped America. Through thousands of miles of raw wilderness on their voyage of discovery, the Captains touch on areas that are national parks today. One of those parks is counted among the natural wonders of the world. In these natural parks, we see the untamed, unspoiled America that they saw. Here, we make our own voyage of discovery. 80 minutes. Not rated.

With the help of the West Wind we begin the journey of personal healing and transformation. *Wind of the West* lights the sacred ceremonial fires of our souls with stirring emotional vocal performances by Mohican Grammy-winner Bill Miller. The Native American flute, guitars and rhythms are sculpted into a musical feast for the soul by multi-Grammy nominated producer Peter Kater. This contemporary musical journey through the depths. #### **SACRED GUITAR AND VIOLIN MUSIC OF THE MODERN AZTECS (1977)**

The Aztecs are one of Mexico's largest Indian groups, numbering over 1,000,000 and they are spread over many parts of contemporary Mexico. One area they inhabited was the southern and southwestern fringe of the Huasteca - an ancient and independent kingdom in eastern Mexico located along the Gulf of Mexico near the mouth of the Panuco River. The region is also inhabited by the Huastecs, the Otomi and the Tepehua Indians. This recording was made during 1972 and 1973 in the Village of Puyecaco, Municipio de Ixhuatlan de Madero, Veracruz. The songs recorded include Xochipitsauak, perhaps the most widely known

piece of sacred music in the entire Huasteca; a series of sacred music that accompanies the short ritual carried out at each house during the winter solstice fertility ceremony and the Dance of the Tlamatiketl where the height of the winter solstice fertility ritual has been reached. Also three Ayakachmitotia' rattle dances (Nopalli', Koatl and Ehtokani') that are the typical musical background for the ritual dancing performed for their fertility diety Tonantsi' during the winter solstice ceremony called Tlaketelilis. #### **SACRED SPIRIT**

##### - CHANTS & DANCES OF THE NATIVE AMERICANS

After much deliberation we have made the decision to carry this special recording from Virgin Records. Although produced in North Africa, it does contain some beautiful music. With the exception of two songs, they are all traditional Native American songs though performed in a New Age style. We held off carrying this recording for many years due to it not being an authentic Native recording. It deserves to be listened to. It truly is a remarkable CD. 11 songs including *Wishes Of Happiness & Prosperity (Yela-Noha), The Cradlesong (Dawa), Elevation (Ta-Was-Ne), and Celebrate Wild Rice (Ya-Na-Hana)*.

#### **BUFFY SAINTE-MARIE**

When young people of today hear the name Buffy, they think vampire slayer. For those in the know, however, Buffy means the legendary BUFFY SAINTE-MARIE. Buffy speaks to us in a music-poetry style so uniquely her own that makes it hard to find its source. A hint of blues-inflection, a trace of Indian song, a touch of Parisian chanson, an echo of beat, a bit of weird, but nowhere a direct influence. She is a fusion of poet-composer-singer. The way of Buffy Sainte-Marie cuts through pain to awareness, digs through layers of human weakness to disclose the strengths of men, exposes what is in order to reveal what might be. Responding to numerous requests many of her original albums have been re-issued on CD.

**- RUNNING FOR THE DRUM**

*Buffy Sainte-Marie* has been running for the drum practically her whole life, pursuing its internal call to life, love, independence, creativity and activism. That drumbeat has led her to multiple careers and finally drew her back into the recording studio to create "Running for the Drum," her first new recording since 1996. Buffy crafted eleven original songs and an expanded version of *America the Beautiful* into what she calls her "usual whiplash collection of many styles—pop, protest, country, rock, dance-remix, rockabilly and big love songs." Packaged with the CD is a DVD documentary, "Buffy Sainte-Marie: A Multimedia Life." The biography traces Buffy's fascinating path from her birth on a Cree reservation in Saskatchewan to her early success in the Greenwich Village folk scene, her subsequent musical and political activism, which earned her a spot on the government's blacklist, and to her current role as artist, educator, un-

stinting activist and timeless musician. 12 songs on the CD include *No No Keshagesh, I Bet My Heart On You, Still This Love Goes On, Too Much is Never Enough, Working for the Government*, and *America the Beautiful*.

**THE SALT SONG TRAIL**

The Salt Songs are the sacred songs of the Southern Paiute people. The songs are used in memorial ceremonies, for cultural revitalization and as a spiritual bond for the thirteen bands of Southern Paiutes living in California, Nevada, Utah and Arizona. Through the beautiful landscape of the Colorado Plateau, deserts and river valleys, the Salt Song Trail traces the journeys of ancestral peoples to historic and sacred sites. And collection sites for salt and medicinal herbs. This film documents an historic gathering and healing ceremony at Sherman Institute - a former Indian boarding school where Indian children were forcibly taken from their homes and forbidden to practice their traditional cultures. Salt Song singers and dancers return to the school years later to sing for the children who never came home. Approximately 20 minutes.

### SEASONS OF A NAVAJO

This sensitive portrait of a traditional Navajo family reveals a world where "living well" means kinship with the earth, and unceasing hard work. As the seasons unfold, we travel with the family from the high ground of Defiance Plateau to the lush green floor of Canyon de Chelly where their corn grows along the riverbank. Attuned to what the land will yield at different times of the year, the Navajo move their livestock with the seasons, to find the best places for grazing. Strong ties to family and tradition bring a sense of great heart to *SEASONS OF THE NAVAJO*. As we watch grandparents teach children, and impart the ancient "blessings of kindness", we see how these people are preserving a unique culture. Told in the family's own words. 60 minutes

Being assigned as caretakers of Mother Earth, the Hopi regard these high desert mesas to be the "Spiritual Center of the Universe"... also known as the Fourth World. These songs which have never been recorded, provide the listener with an introduction to the traditional musical world of the Hopi. Liner provides background information.

**JOANNE SHENANDOAH & MICHAEL  
BUCHER****- BITTER TEARS SACRED GROUND**

The contributions of Native nations to the formation of the United States are barely known by most Americans. But life as we know it would not be possible without extracting from the indigenous peoples inventions such as corn, canoes, cotton and chocolate with democracy thrown in. The idea of a "union of colonies" along the Atlantic seaboard was suggested by the Haudenosaunee (Six Nations Iroquois) Confederacy in 1744. Treaties were signed between the infant United States and the Haudenosaunee which committed the Americans to respect Native lands. In the early 1950's the U.S. breached these treaties when the Army Corps of Engineers decided to build a massive hydroelectric dam on the Allegheny Seneca Territory in southwestern New York state. Peter Lafarge, a Native poet and musician, was moved by the forcible relocation of the Seneca's and wrote *As Long As the Grass Shall Grow*. This ballad caused Johnny Cash to record his historic "**Bitter Tears**" album which was blacklisted by commercial broadcasting outlets. Yet it has endured among indigenous people and remains one of the most popular of all recordings across Native America. Joanne and Michael re-affirm their Native heritage while recognizing the contributions made to make this great nation and offer up these songs in honor of all human beings, and the natural world. 13 songs including *Apache Tears*, *Star Spangled Banner*, *America*, *Talking Leaves*, and *Sacred Ground*.

### SINCE 1634: IN THE WAKE OF

#### NICOLET

"Columbus never made it to Wisconsin, but in 1634 French explorer Jean Nicolet did." This three-segment documentary details the subsequent history of the Native American tribes that Nicolet found when he got here - the Menominee and the Winnebago - from their point of view. Nicolet's landing at Green Bay is reenacted in the first 30 minute segment, which also explores how the tribes lost most of their ancestral land over the years. European diseases and attempts to resettle both tribes played major roles. The second segment looks at U.S. policy toward the Menominee and the Winnebago in the 1960s and '70s. In 1961, the federal government withdrew its traditional protection of the Menominee in return for a cash payment to each member. This development led to a rise in activism (and legal wrangling), and the protections were restored in 1973. The conclusion concentrates on the two tribes today. The Menominee manage forests and the Winnebago fund a library, a youth center and a textile printing company with profits from their gaming operations. But along with this material revival is a new-found interest in traditional ways. Notes Winnebago elder Lyle Greendeer, "The young people are going to be more Indian...than we are today." 90 minutes

### SINEW - A MODERN AMERICAN

#### INDIAN STORY

Betty Cooper grew up along Little Badger Creek on the Blackfeet Nation in Northern Montana. Betty was nurtured by her family and elders, taught her culture and participated in Blackfeet religious ceremonies until she was taken from her loving family and forced into Cut Bank Boarding School at the age of six by the U.S. Government. Betty was brutally denied her Blackfeet language, religion and cultural values like other American Indian children. Despite the cruelty of boarding school, domestic violence, her husband's oppressive jealousy and alcoholism, Betty portrays the ordinary and sacred, moving from the challenges of colonial oppression, race, poverty, and gender into strength, beauty and native spirituality, all the while giving back to her community and family. In 2004, Betty was elected to the Blackfeet Tribal Council, the fourth woman in Blackfeet history to do so. Betty's journey is the modern American Indian story. 25 minutes.

### SITTING BULL: CHIEF OF THE LAKOTA NATION

Medicine man. Warrior. Spiritualist. His name was Sitting Bull, and he was one of the fiercest foes the U.S. Army ever faced. BIOGRAPHY® presents a stirring portrait of this legendary Native American who led the Lakota Sioux to victory over General Custer at Little Big Horn. Considered a cunning strategist, Sitting Bull taught his braves new fighting techniques to combat the advance of the white man. But it was his talent for spurring others into action that the army feared most. Able to inspire rebellion even after defeat, Sitting Bull was killed after his arrest for "trying to escape."

### SKINS

In the shadow of Mt. Rushmore, one of America's favorite tourist attractions, lies one of her poorest counties, the Pine Ridge Indian Reservation. For Police officer Rudy Yellow Lodge, the painful legacy of Indian existence is brought home every night as he locks up drunk and disorderly Indians, which frequently includes his own brother, Mogie. Rudy's frustration with the alcoholism on the 'rez' leads him to take the law into his own hands, but his trail of vengeance ends tragically when he unwittingly injures Mogie. Ironically, their relationship achieves redemption after Rudy's tragic error in judgement, and the brothers begin the process of mending their fractured relationship. Ultimately, Rudy is able to honor his big brother, as well as his people, with one exhilarating and life-

affirming act of defiance, revealing the redemptive power of the love between the two brothers. Starring Graham Greene and Eric Schweig. 87 minutes.

Considered evil, skinwalkers are the mysterious shape shifters of the Navajo culture that practice witchcraft and are able to change into other life-forms. It's the weekend and Jack Nez is out on the town looking for excitement. At the local bar he meets good time girl Dixie Cramer who falls for the wrong guy. A one night stand spells disaster and before she realizes, Jack leads her on a journey to the darkside. Not rated.

### SKINWALKERS

From the director of *SMOKE SIGNALS*, comes a mystery from the southwest. Lt. Joe Leaphorn and Officer Jim Chee of the Navajo Tribal Police investigate the murder of medicine man Roman George, who has left a partially completed pictograph at the crime scene. A clue to his killer? Chee thinks so, since he himself is studying to be a medicine man with his former guardian, Wilson Sam. One clue sends chills through the young officer: an arrow used in the killing has a tip of human bone, a sign that a Navajo spirit - a "skinwalker" - is at work. Leaphorn has little patience for his partner's interest in the supernatural. Moreover, he is distracted by the deteriorating health of his wife, Emma, who is diagnosed with recurrent cancer by Dr. Stone, a brilliant young Navajo physician who has recently returned to the reservation. The plot thickens when medicine man Roosevelt Bistie turns up dismembered at an archaeological dig. Again, there are signs of a skinwalker on the job, including human footprints that turn into animal tracks - a trademark of skinwalkers. Based on a novel by Tony Hillerman. Starring Wes Studi (The Last Of The Mohicans, Dances With Wolves) and Adam Beach (Windtalkers, Smoke Signals). 97 minutes. Not Rated.

He was a child of wonder favored by the spirits and gods, and grew to be a great warrior and hunter-fast, strong, and smart in the ways of the forest, men and war. When his father Mudjekeewis left to take his place among the immortals in the Kingdom of the West Wind, Hiawatha's mother dies of a broken heart. To avenge her, Hiawatha sought out his father for a conflict that ended in Mudjekeewis's death. On the warrior's return, he was smitten by the beautiful Dakota maiden, Minnehaha, "Laughing Water", and persuaded her to be his wife. Now, through an emissary from the spirit world, Hiawatha has learned the secret of growing corn. This lets his people establish permanent dwellings and lead a settled and more secure life. But there is an enemy among his own people—an ambitious warrior who envies Hiawatha's fame and the beauty of his wife. When sickness falls on the tribe, Hiawatha goes to

the Black Swamp to fight and destroy Pearl Feather, the evil magician, and bring back the medicine that will heal his people. But neither his daring nor the power of his love can save his cherished Minnehaha, who dies of a fever. A terrible vision reveals to Hiawatha the bleak future of the warring tribes, driven from the lands by the advancing whites-men like the trader, who would barter tin pots and guns for the Indian's wealth of furs and land. At a council of tribal leaders, he shares with them the Great Spirit's message: there is strength for the Indians only if there is peace among the tribes. They must unite, one nation. A single arrow is easily broken, but many arrows together are strong. Then, as his destiny commands, Hiawatha lets the river's current carry him in his canoe away from his people to join the immortals in the West. Starring Graham Greene, Litefoot, Irene Bedard, Russell Means, David Strathairn, Adam Branch, Micheal Rooker, and Sheila Tousey. 114 minutes. Rated PG

**SONGS AND DANCES OF THE FLAT-HEAD INDIANS**

The Flathead Indian Reservation is found in western Montana, with most of its population centered around Arlee. Music serves in at least three spheres—entertainment, religion and personal power. The Flathead believe that music originates from three sources—other tribes, individuals who make up songs, and from the vision quest, of which the last is most important. It is in connection with the vision quest that the only direct ownership of songs is found. The songs presented here were recorded by Alan P. and Barbara W. Merriam in the Arlee area during the summer of 1950. A total of 226 songs were recorded giving a reliable cross section of the music of the Flathead. 19 songs including two war dance songs, two scalp dance songs, three love songs, a wake up song, a snake dance song, an owl dance song, a sweathouse song, a canvas dance song, a stick game song, a lullaby, a life song, a gift dance song, a jump dance song, and two harmonica songs..

### SONGS OF THE MUSKOGEE CREEK

Starting in May and ending on October, the dances of the Creek (Muscogee) Nation revolve around the main Green Corn Ceremonial usually held on chosen days in July or August. Originally from the states of Georgia and Alabama, the Creeks were removed to Oklahoma in the early 1800's, and after reestablishing their towns in Oklahoma, the Green Corn Ceremonial has been followed down to the present day. The Green Corn Ceremonial differs somewhat from town to town. The Ceremonial itself was practiced in related forms by most tribes of the Southeast, songs and practices in Georgia hardly differing from those in Louisiana. However, it is the Creek (Muscogee) Nation, including the confederated Yuchi and closely related Seminole, who retain to this day the purest, most complete forms of the Green Corn Ceremonial.

When he learns these magnificent creatures are endangered, that only 400 are in existence in a small area of northern BC, Simon turns from shy, stuttering daydreamer to political activist. Mustering his courage, he takes on the powerful forest industry and the provincial government, eventually rallying everyone from Prince William to the Backstreet Boys. Simon ultimately secures the protection of 2500 square miles of Princess Royal Island - one of the largest land protection battles ever won - and is named one of Time Magazine's "Heroes for the Planet." **THE SPIRIT OF CRAZY HORSE**

"The heart of everything that is." These are the words which the Sioux Indians use to describe their ancestral homeland, the Black Hills of South Dakota. Those million acres form the spiritual core of the Sioux culture, and it's a land they have struggled to reclaim for a century. THE SPIRIT OF CRAZY HORSE reveals the modern Sioux struggle to regain their heritage, and how places like Wounded Knee became sites for a fight that continues still. The program carries us through the militant con-frontations of the 1960's and 70's, the

explosive results of 100 years of confinement on Indian reservations. By investigating the simmering conflict of recent decades, **THE SPIRIT OF CRAZY HORSE** offers a clear perspective on the crucial choices that lie ahead. While the U.S. Supreme Court has ruled that the Black Hills were stolen from the Sioux, the fight for the return of the land rages on. Narrated by Milo Yellow Hair. 60 minutes

**SQUAW'KIN ISKEWAK**

**- WYMYN'S SONGS**

In the dawning, Wymyn picked up the drum. The heartbeat of Mother Earth brought healing and peace. It touched the souls of the children and the men and brought contentment to the Wymyn knowing that there were strong families and vibrant communities. Over time that connection with the drum diminished for Wymyn. In response, the heartbeat of Mother Earth began sounding in the hearts of Wymyn across this land. They are again picking up the drum to bring healing to their families and community. SQUAW'KIN ISKEWAK are members of that sisterhood. Their teachings are that all women have a place within every circle. This music is traditional in sound...and strong in spirit. It is respectful. It is filled with pride and purpose, and sometimes, it is also just plain fun. 12 songs including *Mother of the Round Dance*, *Grandmother Moon* and *The Unity Song*.

### STICK GAME SONGS

#### - VOLUME 1

The Stick Game is an ancient game within North American First Nation's culture that pre-dates contact with other cultures. Through the Stick Game, stories and songs could be, and still are shared. The Stick Game brought people together; people from within a tribe, and also from differing tribes. This gathering of the people inevitably encouraged the exchange of stories, whether it was information about friends and relatives, passing of myths, or information about the different tribes, the topics for conversation were limitless. The singing that accompanies the Stick Game had connotations that were mostly of a mythological nature. The songs that were used were believed to have mythological powers, and if a group sang its songs and won the game then it was believed that the group had more power than the opposing group. Their powerful song was believed to have made them succeed. We hope you enjoy these traditional songs presented to you by the McGilverly family. Have fun learning to play North America's First Nations oldest and most popular game! 16 songs AR 1174 CD \$17.98 (Canada)

##### - FIRESIDE TALES - More Lessons From The Animal People

Stories are more than 'just entertainment' for children. These stories offer listeners a chance to look at our world and ourselves in a different way - the way of the Native American. Traditionally told by an older person during the cold season, they are told to teach the history, the memories, the culture and the values of the People to the next generation, while also reminding the older generation of the proper way to live in harmony with the Earth and all who share it. Most of the stories on this recording are from the Iroquois tradition, often told by many of the Six Nations. Seven more wonderful *LESSONS FROM THE ANIMAL PEOPLE* including *Fox & Goldfinch, Bear & Chipmunk and Why There Are Bats.*

##### - WOPILA - A GIVEAWAY

*WOPILA*, a collection of seven stories retold by Dovie Thomason, has been awarded the 1993 Parent's Choice Gold Award as one of the best recordings for children. Lakota stories are intended to teach proper behavior or a moral lesson without the narrow moralizing of many familiar fables. Unlike many modern images, good and evil are neither obvious or polarized in her stories. The characters are multi-dimensional and face choices - choices faced by children and adults, in our time as in the past. Side one features stories that teach the ways of the Lakota - the comforting protection of *The Pet Donkey*, respect for the spiritual world in *The Spirit Wife*, values in *The Rabbit People or Iya (Camp Eater)*. Side two offers a selection of stories about Iktomi, a person who personifies the best, and the worst, in human beings as in *Iktomi and Buzzard, Iktomi and Ducks and Rocks and Iktomi Changes His Mind*. The entire recording is augmented by the traditional flute music of Kevin Locke, an outstanding interpreter of traditional Native American flute music.

### TONTO

Centuries ago, the cliffs were alive! Here, in the sometimes harsh environment of Arizona's Tonto Basin, the Salado built irrigation canals and made the desert bloom. Hundreds of years ago, pueblos lined the Salt River and its tributaries. The prehistoric Salado people were carving a civilization out

of the desert. Their trade network extended for many hundreds of miles and included live macaws from Central America. Finely woven cotton textiles and beautifully crafted polychrome pottery marked their culture. Yet seldom did the Salado build in the cliffs... and there is no place quite like the cliff dwellings at Tonto National Monument. The cliff dwellings offer us one of the best preserved looks at Ancient America and the lives of these resourceful people. Discover the lingering mysteries and the intriguing world of the ancient Salado. 30 minutes.

### **JOHN TRUDELL**

John Trudell is as direct and plain spoken as the words he puts to music. He is a people's poet in the truest sense of the term. His potent imagery and passionate convictions have established his reputation as a spoken word artist whose international following reflects the universal language of his music and his message. John's extraordinary life helped to forge his dangerous poetry and visionary music. From Omaha, Nebraska, John grew up in and around the Santee Sioux reservation. A Vietnam Veteran, John served in the U.S. Navy from 1963 - 1967, attended some college until he dropped out in 1969, and participated in the occupation of Alcatraz Island by Indians of All Tribes. In 1979 John met Jackson Browne, which led him into the world of music. He continues to be on the cutting edge. A poet, an activist. His poetry and music is political. It is about the spirit of his people. He is an artist.

#### - TUMIVUT

*Tumivut*, direct translation to English means "our footsteps" and is the name of a musical project marrying traditional Inuit throat singing with multiple contemporary styles of music. The ranges of music that *Tumivut* dip in and out of borrows from hip-hop, trip-hop, classical, rock and new frontiers of the avant garde. The timeless and beautiful Inuit throat singing of Cynthia Pitsiulak and Charlotte Qamaniq-Mason seamlessly weaves in and out of the musical soundscapes created by the production team of Orick Terry and Daybi. *Tumivut* was not a pre-conceived idea. It was born from the right time and place, sculpting sounds and music into frames that would not stifle or dishonor the traditional people of Nunavut. Ten songs include *Aquanatomy, Movement, Solarity, and Breeze (The Wind)*.

She even has plans to vacation in Europe for the summer with her roommate, but all that changes in a heartbeat when her grandmother falls sick. Turquoise is asked to care for her ailing grandma, and suddenly Turquoise must choose between Rome and the Reservation. A "Rez" summer seems dreadful to this Urban Native, who is ready to discover the world behind the lens of her camera. ### TWO RIVERS

Some ten years ago, almost by accident, a handful of whites and Native Americans in the Northwest began meeting together to find out why relationships between Natives and non-Natives are virtually nonexistent outside of courtrooms. *Two Rivers* documents their discoveries, as they grappled with the radical differences between the two cultures, and faced the pain and anger Indians feel because of racism, hypocritical and greedy American policies, and the serious harm Indian Schools have inflicted on Native families and culture. The results of this groups' work together is astonishing and touching people on both sides. It's changing lives, impacting communities, and affecting race relations in the Northwest, perhaps even across America. 57 minutes. Not rated.

### TWO SPIRITS

Fred Martinez was a Navajo boy who was also a girl. In an earlier era, he would have been revered. Instead he was murdered. *Two Spirits* interweaves the tragic story of a mother's loss of her son with a revealing look at a time when the world wasn't simply divided into male and female and many Native American cultures held places of honor for people of integrated genders. Fred Martinez was nadleehi, a male-bodied person with a feminine nature, a special gift according to his ancient Navajo culture. But the place where two discriminations meet is a dangerous place to live, and Fred became one of the youngest hate-crime victims in modern history when he was brutally murdered at sixteen. Between tradition and controversy, sex and spirit, and freedom and fear, lies the truth - the bravest choice you can make is to be yourself. 54 minutes. Not Rated.

The contemporary Native American Sobriety Movement is flourishing throughout the Indian communities of North America. It combines modern medical approaches to substance abuse recovery, with Native American spiritual traditions. One of these traditions is illustrated in *THE TALKING CIRCLE*. The video features many respected Native American therapists and healers. Consisting of eight 15 minute segments, it is designed to be used as a prevention and recovery tool by individuals, clinics, recovery programs, schools, and youth groups. The segment topics include: 1: Introduction to The Talking Circle; 2: Wisdom Of The Elders; 3: Women Of The Circle; 4: Fetal Alcohol Syndrome; 5: Healing The Youth; 6: Men Of The Circle; 7: Native Ways Of Treatment; 8: The Red Road Approach. 120 minutes. **WAR DANCE SONGS OF THE PONCA**

In the 19th century, and perhaps earlier, what is today called war dance was traditionally performed by an organization of Ponca men who were selected for their courage in battle and dedicated selflessness. For reasons now obscure, they were called the He-tho-shka. Each meeting of the Hethoshka was announced by an appointed camp crier. It was the self-imposed duty of the members to feed everyone who attended, and to give food or goods to those in need. When the Hethoshka danced, it was an inspiring array of the membership. The songs told of their deeds, eloquently recording them for posterity, while the crier loudly called their praises. Today the Hethoshka tradition lives among the Ponca much as it did a century ago. A war dance is never held without feeding everyone present, and giving away food and goods continues as it always has. When the camp crier calls the dancers, and the Flag Song of the Hethoshka is sung, the dance begins.

**- VOL. 1**

18 war dance songs of the Ponca Hethoshka sung by Lamont Brown, Harry Buffalohead, Joe H. Rush, Russell Rush, Sylvester Warrior, Albert Waters, Louis Yellow Horse, Alice Cook, Lucy C.F. A central figure is George Washington, then a brash and ambitious young officer in his twenties hoping to make his reputation in the British military, whose blunders actually trigger the war. The series also highlights the critical and sophisticated role of Native Americans in the conflict between the English and the French. Narrated and hosted by Graham Greene, a full-blooded Oneida Indian actor whose ancestors fought in this war. Color and Black & White. 240 minutes. Not rated.

### WE SHALL REMAIN

They were charismatic and forward thinking, imaginative and courageous. Compassionate and resolute, and, at times, arrogant, vengeful, and reckless. For hundreds of years, Native American leaders from Massasoit, Tecumseh, and Tenskwatawa, to Major Ridge, Geronimo, and Fools Crow valiantly resisted expulsion from their lands and fought the extinction of their culture. Sometimes, their strategies were militaristic, but more often they were diplomatic, spiritual, legal, and political. From PBS's acclaimed history series, AMERICAN EXPERIENCE, in association with Native American Public Telecommunications, WE SHALL REMAIN establishes Native history as an essential part of American history. These five documentaries spanning almost four hundred years tell the story of pivotal moments in U.S. history from the Native American perspective, upending two-dimensional stereotypes of American Indians as simply ferocious warriors or peaceable lovers of the land. Narrated by Benjamin Bratt.

#### **- BY SACRED WATERS**

Terry is a minister, a spiritual counselor, an educator, singer, dancer, artist, craftsman, and flute maker. His work is focused on keeping the rich cultural heritage of the Native North American people alive. Terry tells us "Our elders tell us of a time at the beginning of creation when the rivers ran in both directions. We were told these waters were sacred and we, as human beings had to be very careful what was put into the water, for there would come a day that it all flows back to us. We are now in that stage where the water that returns to us is beginning to kill us. If we are to survive, we must start putting clean things back into the rivers. That way when our children and their children's children go to drink or bath in the water, it will be clean and they will remember those of us who have gone on before them and they will say thanks." 9

Steve Williams, Pawnee and Absentee Shawnee, is fast becoming one of the top Native guitarists and recording artists of today. Through a vast range of musical influences, Steve has created a unique and recognizable sound. After four years of living precariously, he realized that the void he felt in his life could not be filled with "fame and fortune." Being raised in a Christian home, he remembered the words taught to him as a child. *Jesus said "Come unto me all ye that are heavy laden and I will give you rest."* It was then that he experienced

the peace and fulfillment he had been searching for. For the past 12 years he has dedicated his life to sharing the gospel through his music. The focus of this album is not him, but praise and glory to our Lord Jesus Christ. He presents for you nine songs, five of which he wrote, that include *His Name Is Jesus, Calling You, Rain Holy Spirit, and Use Me One More Time.*

**WIPING THE TEARS OF SEVEN GENERATIONS**

The award winning documentary of The Big-foot Memorial Ride. In December of 1990, 300 Lakota Sioux horseback riders rode 250 miles in two weeks, through bitter sub-zero winter weather, to commemorate the lives lost at the Wounded Knee Massacre of 1890. This pro-gram relates the story of how the Lakota Nation mourned the loss of their loved ones for 100 years. They mourned the loss of some of their people's sacred knowledge which died with the elders that day. Then, inspired by dreams and visions of unity and spiritual awakening, a group of Lakota decided to bring their people out of mourning through a traditional Lakota ceremony known as Washigila; *Wiping The Tears*. The Bigfoot Memorial Ride was that ceremony. **WISCONSIN POW WOW / NAAMIKAAGED: DANCER FOR THE PEOPLE**

These two videotapes illustrate the way in which pow wows today incorporate historical traditions and modern innovations. Wisconsin Pow wow is a general treatment of the powwow itself as it has come to be held by Ojibway people in northern Wisconsin. Naamikaaged: Dancer for the People follows a young Ojibway, Richard LaFernier, as he sets up his tent, honors his ancestors, dresses and paints himself for a pow wow, dances, and sings at pow wows in northern Wisconsin. His shelter, his prayers, many items in his dress, and his face paint demonstrate how he is rooted in a long historical tradition and part of a large family network, but is also part of the 1990's. A 40 page booklet with extensive notes by ethnomusicologist Thomas D. Venum, Jr. Accompanies these tapes. The booklet also includes a map. A diagram of the pow wow site, a complete transcription of the second video soundtrack, discussion questions for school children, and related reading and listening sources. 90 minutes

### JIMMY WOLF

#### **- RAW BLUES**

When you listen to this CD you get exactly what the name implies, "RAW BLUES." From the first cut you get the real deal, kind of the modern version of the old time roadhouse whisky boogie blues. His guitar style is like that of Jimi Hendrix and Stevie Ray. Jimmy delivers his vocals in a George Thorougood style, kind of mean like his guitar playing.. Be sure to fasten the seat belts and lock the doors and enjoy the ride when you play this recording.

### WOMEN'S FANCY DANCE SONGS

#### **- VOLUME 1**

The Fancy Dance originated as the Fancy War Dance by the Hethuska society in Oklahoma. It was invented by Gus McDonald who is now internationally recognized for this contribution to Native American heritage. There are two styles of this dance - a basic step while dancing around the drum and a contest step with fast and intricate footwork combined with a spinning up and down movement. Women started coming out onto the dance floor and accepted into dance circles around 1953. Before this time they would stand in the background, usually behind the drums, and sing. Today the celebration aspect of the Pow Wow is as important as it was a hundred years ago, but now the celebration is one of being Indian and having a unique culture and long reaching history. This new outlook opens the dance floor to all. WOMEN'S FANCY DANCE SONGS is a beautiful collection of songs dedicated to all the Women of Pow Wow. Drums include BEAR CREEK, EYABAY, BATTLE RIVER, YOUNG GREY HORSE, RED TAIL, EASTERN EAGLE, NORTHERN WIND, SPIRIT SAND, WHITEFISH BAY, RIVER CREE, WALKIN' BULL, LAKE VERMILLION and WHITELODGE. 16 songs.

This is a great collection of Hand Drum Songs performed by some of the world's finest performers. Native Americans believe that the drum is the heartbeat of Mother Earth, the heartbeat of all Native people, and a way of bringing things back into balance. Whether dancing, singing or listening, people around a drum are able to connect with the Spirit through its rhythmic pounding, and as a result, the drumbeat is a focal point of ceremonies. 14 songs from Nakoda Lodge, Logan Alexis, Red Bull, Dene Singers, Squaw'kin Iskewwak, Walking Bull, Lodge Creek and Moose Mountain.

#### - ...HONOUR SONGS

As the name suggests, Honour Songs are requested at the Pow wow or Celebration to honour someone. Perhaps a family would request an Honour Song for a son returning from the war, or in the memory of a deceased relative. Honour Songs can be made for almost any occasion. In some traditions, people with an Aboriginal name have their own songs, and those songs are sung if the person is to be honoured. In other instances there are "genetic" Honour Songs for people without their own. 12 songs from Black Lodge, Chi-Geesis, Circle Strong, Two Feathers, Red Wind, Walking Wolf, Hi-Bull, Hanisha, Spirit Wind, Windy Rock and Red Hawk.  
SSCT 4467 CD \$15.98

#### - ...SHAKE SONGS

Sneak Up Dance: The dancers imitate "sneaking up" on their enemies. This dance starts with the dancer in a kneeling position. As the music starts, the dancer begins to shake his leg and begins to bend low to the ground as if hiding behind an object. As the music intensifies, the dancers begin to move their bodies and start to rise from the

kneeling position into a low crouch and dance in a zigzag pattern simulating running from place to place. 12 songs from Maza Duta, North Buffalo Cree, Brown Eagle, Tail Wind, Nehiweypwat, Walking Wolf, Eyabay, Hi Bull, First Nation Singers, White Eagle, Lone Eagle Creek and Northern Wind.  
SSCT 4468 CD \$15.98

#### - ...FUN ROUND DANCE SONGS

Throughout the Pow Wow circuits there is always a beautiful array of colorful dancers that are admired by thousands upon thousands of people. In North America we have the Fancy Dancers, Jingle Dress Dancers, Men's and Ladies Traditional Dancers, but it seems that the Tiny Tots steal the show. With their beautiful regalia and their innocent smiles, these boys and girls are the next generation of the super dancers you will see at future competitions. 14 songs from Eyabay, Stoney Eagle, Red Bull, Gerald Waterhorn, Ray & Rhonda, Moose Mountain, Ojibway Travelers, Eugene Cardinal, Clayton Chief and Edward Runaround.

#### - ...FLAG/VICTORY SONGS

In recent years, nearly every tribe has composed a flag song, dedicated to the men and women who have served in the armed forces in various wars. The flag songs are the Indian equivalent of the National Anthem; all stand as the song is sung. There is no dancing to this song, but all stand in respect. Women whose father, brother or son is a combat veteran may traditionally dance in peace. The Flag Song is sung at the beginning of most aboriginal activities. 14 songs from Black Lodge, Willow Creek, Youngblood Singers, North Buffalo Cree Jrs., Eagle Hill, Whitefish Bay, Pigeon Lake, Eagle Tail, Red Scaffold, Grey Buffalo, Chinkiki Lake Singers, Whirlwind Singers, Red Sons and Silvercloud Singers.

#### - XIT: WITHOUT RESERVATION

In 1970, a young American Indian rock band burst upon the music scene. They carried a message of unity, hope, and truth to Indian people across America. Their lyrics brought to the surface the injustice that had been and continues to be inflicted upon Native America. They not only brought rock and roll to Indian people, they brought Indian consciousness to the world through rock and roll. On May 20, 2000, they celebrated their 30th anniversary at the Celebrity Palace in the Mystic Lake Casino in Pryor Lake, Minnesota. It was a reunion of one of the world's premier American Indian rock and roll bands...XIT. XIT: WITHOUT

RESERVATION is perhaps the highest energy live concert special to emerge from the American Indian music scene. Thirty years after XIT signed with Motown and toured the United States and the world, Tom Bee (founder and lead vocalist), and band veterans Obie Sullivan (keyboards), P.J. West (drums), Willie Bluehouse Johnson (lead guitar), Jim Boyd (guitar), and Louie Lomativu (bass guitar) delivered an electrifying performance with a message that still speaks to the heart of the American Indian experience today. The production is filled with many of XIT's greatest hits, such as: *Color Nature Gone, We Live, Reservation of Education, Young Warrior, Christopher Columbus, and Cement Prairie*. This top-notch music special is fast paced, bathed in dramatic lighting, peppered with pyrotechnics and topped off by the wonderful guest appearance of background vocalists Jennifer and Pura Fe of ULALI. 56 minutes.

The drama of his paintings is heightened by an intensity of hue and unexpected spatial relationships. Abstractions of the landscape merge with exaggerated human forms; blanket and pottery patterns further echo the shapes of the land. Couple this with the music of Mary Youngblood, Grammy Award winner in 2003 for the vibrant release *Beneath The Raven Moon*. Many of the songs on that album and songs from her other releases, *The Offering*, *Heart Of The World*, and *Feed The Fire* accompany the ever changing art of Pena. 63 minutes, set for continuous play.

**YOUR HUMBLE SERPENT - THE WISDOM OF REUBEN SNAKE**

In this portrait of a contemporary American Indian leader, the late Reuben Snake speaks out on ecology, sacredness, intuitive thinking and "The Rebrowning of America". As Reuben grew up his elders taught him that a leader is a servant to the people. Reuben lived his life true to that teaching, serving his country as a Green Beret, his tribe as a Winnebago Tribal Chair-man, and all his Indian people as President of The National Congress of American Indians. When the U.S. Supreme Court denied First Amendment religious liberty to the sacramental use of Peyote for his Native American Church, Reuben arose to the challenge creating The Native American Religious Freedom Project and producing an award winning documentary film entitled THE PEYOTE ROAD. YOUR HUMBLE SERPENT is an enlightening and inspiring look at a modern day American Indian leader and role model. 70 minutes KIFARU-5 VHS (Out of Print.) (Videos/Documentary)

Kee-Tsa-Gya means "Today is a Good Day" in Kiowa. The songs on their sixth album are recorded with a soft, steady beat to allow the listener to hear more voice than drum. This brings out the beautiful melody in each song. When sung at a pow wow though, they will really pick up the beat. Eight intertribals, a round dance, and a southern straight dance.
